Amend §3.78 re: GAU fee

Amend §3.78 re: GAU fee

I don't agree that surcharges should be applied to an added nonrefundable fee nor added to the expedite fee. With the price of oil as it is and company cut backs as a result of revenue lost, companies are working to promote dollars saved and capital efficiency. I don't feel that this is the best time for the RRC to impose even more fees and surcharges.
