OFFICE OF GENERAL COUNSEL
HEARINGS SECTION**

OIL AND GAS DOCKET NO. 01-0252071

ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY BEDFORD OIL & GAS, INC. (061600), AS TO THE DINGES, W.E. (12178) LEASE, WELL NO. 1, BUCHANAN FIELD, CALDWELL COUNTY, TEXAS

FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on August 30, 2007, and that the respondent, Bedford Oil & Gas, Inc. (061600), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Bedford Oil & Gas, Inc. (061600), ("Respondent") was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was signed and returned to the Commission.
2. The returned certified receipt (green card) that was attached to the Original Complaint and the Notice of Opportunity for Hearing mailed to Respondent's most recent P-5 address was signed and returned to the Commission on June 27, 2007. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On February 27, 2007, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Edward A. Stam; President.
4. Edward A. Stam, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. The violations of Commission rules committed by respondent are related to safety and the control of pollution.

6. Respondent designated itself to the Commission as the operator of Well No. 1 on the Dinges, W.E. (12178) Lease ("subject well"/"subject lease") by filing a Form P-4 (Producers Transportation Authority and Certificate of Compliance) with the Commission effective on July 1, 2003.
7. According to Commission records the Respondent's Form P-5 (Organization Report) is active. Respondent has a \$50,000.00 bond as its financial assurance.
8. The subject well ceased production on or before February 2003.
9. The subject well has not been properly plugged in accordance with, and is not otherwise in compliance with, Statewide Rule 14.
10. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject well. Unplugged well bores constitute a cognizable threat to the public health and safety because of the probability of pollution.
11. The estimated cost to the State of plugging the subject well is \$6,500.00.
12. Well No. 1 on the Dinges, W.E. (12178) Lease last had a plugging extension on February 28, 2007.
13. Commission district office inspections were conducted on June 22, 2006, September 20, 2006, October 11, 2006 and November 30, 2006 for the Dinges, W.E. (12178) Lease. The signs or identification required to be posted at the lease entrance and the well were missing.
14. Failure to identify a well by the posting of the sign required by Statewide Rule 3 has the potential for causing confusion and delay in remedying a violation or emergency and poses a threat to the public health and safety.
15. Commission district office inspections were conducted on June 22, 2006, September 20, 2006, October 11, 2006 and November 30, 2006 for the Dinges, W.E. (12178) Lease. Well No. 1 had casing open to the atmosphere.
16. Maintenance of surface control by wellhead assembly is necessary to prevent the discharge of oil and gas wastes on the subject lease constituting a hazard to public health and safety because the discharges of oil and gas wastes onto land surface can migrate into surface or subsurface waters.
17. The Respondent has not demonstrated good faith since it failed to plug or otherwise place the subject lease and subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.

18. The Respondent has a history of Commission rule violations including the following docket(s):

Docket No. 01-0244135; Agreed Order Served: April 11, 2006; and
Docket No. 01-0245721; Agreed Order Served: August 22, 2006.

5. Respondent is responsible for maintaining the subject lease in compliance with Statewide Rule 13(b)(1)(B), which requires that surface control of all wells be maintained with wellhead assemblies.
6. Respondent is responsible for maintaining the subject lease and subject well in compliance with all applicable Commission rules according to Statewide Rules 14, 58, and 79 and Chapters 89 and 91 of the Texas Natural Resources Code.

Stam, and any other organization in which he may hold a position of ownership or control, shall be subject to the restrictions of Texas Natural Resource Code Section 91.114(a)(2) for a period of no more than seven years from the date the order entered in this matter becomes final, or until the conditions that constituted the violations herein are corrected or are being corrected in accordance with a schedule to which the Commission and the organization have agreed; and all administrative, civil, and criminal penalties and all cleanup and plugging costs incurred by the State relating to those conditions are paid or are being paid in accordance with a schedule to which the Commission and the organization have agreed, whichever is earlier.
