OIL AND GAS DOCKET NO. 02-0233439

FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on March 20, 2003, and that the respondent, Aspen Energy, Inc. (035449), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Aspen Energy, Inc. (035449), ("Respondent") was given Notice of Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was returned to the Commission marked "unclaimed."
2. The returned certified receipt containing the Original Complaint and the Notice of Opportunity for Hearing was returned to the Commission marked "unclaimed" on March 3, 2003. The receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On March 27, 1997, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): John W. Bockman; President and Frankie Jim Bockman; Vice-President.
4. Respondent designated itself to the Commission as the operator of Well No. 1 (076451) on the Gus Houdmann Lease ("subject well"/"subject lease") by filing a Form P-4 (Producer's Transportation Authority and Certificate of Compliance) with the Commission effective on April 1, 1993.
5. According to Commission records the Respondent's Form P-5 (Organization Report) became delinquent on March 1, 1998. Respondent paid a fee of \$750.00 as financial assurance at the time of its last Form P-5 renewal.

6. The subject well ceased production on or before January 1, 1993.
7. The subject well has not been properly plugged in accordance with, and is not otherwise in compliance with, Statewide Rule 14.
8. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject well. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
9. The estimated cost to the State of plugging the subject well is \$16,200.00.
10. The Respondent has not demonstrated good faith since it failed to plug or otherwise place the subject lease and the subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
