OFFICE OF GENERAL COUNSEL
OIL AND GAS SECTION**

OIL AND GAS DOCKET NO. 02-0235500

ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY MAINLAND ENERGY CORP. (522442), AS TO THE DIEBEL, FRED & EVELYN LEASE, WELL NO. 1 (158398), ALLIGATOR MOTT (1700) FIELD, DE WITT COUNTY, TEXAS

FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on October 9, 2003, and that the respondent, Mainland Energy Corp. (522442), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Mainland Energy Corp. (522442), ("Respondent") was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was signed and returned to the Commission.
2. The returned certified receipt (green card) that was attached to the Original Complaint and the Notice of Opportunity for Hearing was signed and returned to the Commission on August 18, 2003. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On May 1, 2001, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Douglas Keith Foree; President.
4. Respondent designated itself to the Commission as the operator of Well No. 1 (158398) on the Diebel, Fred & Evelyn Lease ("subject well"/"subject lease") by filing Form P-4's (Producer's Transportation Authority and Certificate of Compliance) with the Commission effective on March 6, 1996.
5. According to Commission records the Respondent's Form P-5 (Organization Report) became delinquent on January 1, 2002. Respondent paid a fee of \$100.00 as its Financial Assurance at the time of its last Form P-5 renewal.
6. The subject well ceased production on or before August 31, 2000.
7. The subject well has not properly plugged in accordance with, and is not otherwise in

compliance with, Statewide Rule 14.

8. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject well. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
9. The estimated cost to the State of plugging the subject well is \$15,800.00.
10. Commission district office inspections were conducted on November 18, 2002, January 16, 2003 and February 27, 2003 for the Diebel, Fred & Evelyn Lease. The signs or identification required to be posted at the lease entrance and tank battery were missing. The sign or identification required to be posted at the well site displayed incorrect information.
11. Failure to properly identify a well by the posting of the sign required by Statewide Rule 3 has the potential for causing confusion and delay in remedying a violation or emergency and poses a threat to the public health and safety.
12. The Respondent has not demonstrated good faith since it failed to plug or otherwise place the subject lease and subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.

CONCLUSIONS OF LAW

1. Proper notice was issued by the Railroad Commission to respondent and to all other appropriate persons legally entitled to notice.
2. All things necessary to the Commission attaining jurisdiction over the subject matter and the parties in this hearing have been performed or have occurred.
3. Respondent is in violation of Commission Statewide Rules 3(a) and 14(b)(2).
4. Respondent is responsible for maintaining the subject lease in compliance with Rule 3(a), which requires that each property that produces oil, gas or geothermal resources and each oil, gas or geothermal resource well and tank, or other approved crude oil measuring facility shall post signs or identification.
5. Respondent is responsible for maintaining the subject lease in compliance with all applicable Commission rules and for properly plugging the subject well according to Statewide Rules 14, 58, and 79 and Chapters 89 and 91 of the Texas Natural Resources Code.
6. The documented violations committed by the respondent constitute acts deemed serious, a hazard to the public health, and demonstrate a lack of good faith pursuant to TEX. NAT. RES. CODE ANN. §81.0531(c) (Vernon 2001).
