OFFICE OF GENERAL COUNSEL
HEARINGS SECTION**

OIL AND GAS DOCKET NO. 04-0280439

ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY NADCF RECOVERY GROUP, INC. (598932), AS TO THE ROBINETTE, J.C. LEASE, WELL NO. 4 (191148), DONNA (7600) FIELD, HIDALGO COUNTY, TEXAS

FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on April 25, 2013, and that the respondent, NADCF Recovery Group, Inc. (598932), failed to appear or respond to the Notice of Opportunity for Hearing. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. NADCF Recovery Group, Inc. (598932), ("Respondent"), was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent Form P-5 (Organization Report) address, which was signed.
2. The electronic certified signature receipt containing the Original Complaint and the Notice of Opportunity for Hearing, was signed and returned to the Commission on March 13, 2013. The certified signature receipt is included in the file and has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On February 24, 2012, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Christopher Del Rossi; President; and Christopher T. Allamon, Vice-President.
4. Christopher De Rossi, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. Christopher T. Allamon, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.

6. The violations of Commission rules committed by respondent are related to safety and the control of pollution.
7. Respondent designated itself to the Commission as the operator of Well No. 4 (191148) on the Robinette, J.C. Lease ("subject well"/"subject lease") by filing a P-4 Form (Producers Transportation Authority and Certificate of Compliance) effective on November 1, 2009.
8. Respondent's P-5 (Organization Report) became delinquent on August 1, 2013. Respondent had a \$50,000 Bond as its financial assurance at the time of its last P-5 renewal.
9. Commission records reflect that on November 3, 2010, the Commission gave Respondent notice by certified mail of the alleged facts or conduct of the Respondent in the operation, or production, of oil or gas from the Robinette, J.C. Lease, Well No. 4 (191148), that appeared to violate the oil and gas conservation laws of this state, or rules or orders of the Commission adopted under those laws, to warrant the cancellation of the certificate of compliance. Said notice gave Respondent an opportunity to show compliance with all requirements of law for retention of the certificate of compliance. Commission records reflect that Respondent did not timely show compliance with all requirements of law for retention of the certificate of compliance and, as a result, the certificate of compliance for the Robinette, J.C. Lease, Well No. 4 (191148), was cancelled, and Respondent given notice of such cancellation, on December 3, 2010.
10. Production reports filed by Respondent with the Commission for the Robinette, J.C. Lease, Well No. 4 (191148), from the January 2011 through April 2011, June 2011 and November 2011, show Respondent produced an approximate total of 14,557 mcf of gas from the Robinette, J.C. Lease, Well No. 4 (191148), after the certificate of compliance had been cancelled and before a new certificate of compliance had been issued. By producing the Robinette, J.C. Lease, Well No. 4 (191148), after notice from the Commission that the certificate of compliance had been cancelled and before a new certificate of compliance had been issued, Respondent violated Statewide Rule 73(i).
11. The Respondent has not demonstrated good faith since it failed to timely plug or otherwise place the subject lease and subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.

CONCLUSIONS OF LAW

1. Proper notice was issued by the Railroad Commission to respondent and to all other appropriate persons legally entitled to notice.
2. All things necessary to the Commission attaining jurisdiction over the subject matter and the parties in this hearing have been performed or have occurred.
3. Respondent is in violation of TEX. NAT. RES. CODE ANN. §85.166 and Commission Statewide Rule 73(i).

5. Respondent is responsible for maintaining the subject lease and subject well in compliance with all applicable Commission rules according to Statewide Rules 14, 58, and 79 and Chapters 89 and 91 of the Texas Natural Resources Code.
6. The documented violations committed by the respondent constitute acts deemed serious, a hazard to the public health, and demonstrate a lack of good faith pursuant to TEX. NAT. RES. CODE ANN. §81.0531.
7. As a person in a position of ownership or control of respondent at the time respondent violated Commission rules related to safety and the control of pollution, Christopher Del Rossi, and any other organization in which he may hold a position of ownership or control, shall be subject to the restrictions of Texas Natural Resource Code Section 91.114(a)(2) for a period of no more than seven years from the date the order entered in this matter becomes final, or until the conditions that constituted the violations herein are corrected or are being corrected in accordance with a schedule to which the Commission and the organization have agreed; and all administrative, civil, and criminal penalties and all cleanup and plugging costs incurred by the State relating to those conditions are paid or are being paid in accordance with a schedule to which the Commission and the organization have agreed, whichever is earlier.

Allamon, and any other organization in which he may hold a position of ownership or control, shall be subject to the restrictions of Texas Natural Resource Code Section 91.114(a)(2) for a period of no more than seven years from the date the order entered in this matter becomes final, or until the conditions that constituted the violations herein are corrected or are being corrected in accordance with a schedule to which the Commission and the organization have agreed; and all administrative, civil, and criminal penalties and all cleanup and plugging costs incurred by the State relating to those conditions are paid or are being paid in accordance with a schedule to which the Commission and the organization have agreed, whichever is earlier.
