**ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY GULFTEX OPERATING, INC. (338748), AS TO THE JACOBS, J.L. (05762) LEASE, WELL NO. 1, WINNSBORO, SE (SUB-CLARKSVILLE) FIELD, WOOD COUNTY, TEXAS**

---

**FINAL ORDER**

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on May 3, 2007, and that the respondent, Gulftex Operating, Inc. (338748), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. Gulftex Operating, Inc. (338748), ("Respondent") was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was signed and returned to the Commission.
2. The returned certified receipt (green card) that was attached to the Original Complaint and the Notice of Opportunity for Hearing mailed to Respondent's most recent P-5 address was signed and returned to the Commission on March 13, 2007. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On February 8, 2007, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Tim P. Burroughs; President/Vice-President.
4. Tim P. Burroughs, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. The violations of Commission rules committed by respondent are related to safety and the control of pollution.

6. Respondent designated itself to the Commission as the operator of Well No. 1 on the Jacobs, J.L. (05762) Lease ("subject well"/"subject lease") by filing A Form P-4 (Producers Transportation Authority and Certificate of Compliance) with the Commission effective on April 1, 1998.
7. According to Commission records the Respondent's Form P-5 (Organization Report) is active. Respondent has a \$50,000.00 Bond as its financial assurance.
8. The subject well has not been properly plugged in accordance with, and is not otherwise in compliance with, Statewide Rule 14.
9. The subject well ceased production on or before May 1995.
10. The W-1X for Well No. 1 on the Jacobs, J.L. (05762) Lease was cancelled in July 2006 for failure to file an H-15 Form (Test On An Inactive Well More Than 25 Years Old).
11. Commission records indicate that Well No. 1 of the Jacobs, J.L. (05762) Lease was completed in 1974, is more than 25 years old, inactive, unplugged and subject to the testing requirements. Commission records further indicate a Commission Form H-15 (Test On An Inactive Well More Than 25 Years Old) was due to be filed for the subject well in July 2006. Respondent has failed to conduct the fluid level test and file the Form H-15 with the Commission.
12. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject well. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
13. The Respondent has not demonstrated good faith since it failed to perform required H-15 tests or plug or otherwise place the subject lease and subject well in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
14. The Respondent has a history of Commission rule violations including the following docket(s):  
  
Docket No. 05-0230514; Rule 46; Final Order Served: January 24, 2003.

5. Respondent is responsible for maintaining the subject lease and subject well in compliance with all applicable Commission rules according to Statewide Rules 14, 58, and 79 and Chapters 89 and 91 of the Texas Natural Resources Code.
