**ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY DERRAL MACON HODGKINS D/B/A H&W OIL (341592), AS TO THE W.J. SHELTON ET AL. (05762) LEASE, WELL NOS. 1, 2 AND 3, WICHITA COUNTY REGULAR FIELD, WICHITA COUNTY, TEXAS**

---

**FINAL ORDER**

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on July 15, 2004, and that the respondent, Derral Macon Hodgkins d/b/a H&W Oil (341592), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. Derral Macon Hodgkins d/b/a H&W Oil (341592), ("Respondent") was given Notice of Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report, which was signed and returned to the Commission.
2. The returned certified receipt (green card) that was attached to the First Amended Original Complaint and the Notice of Hearing, was signed and returned to the Commission on February 27, 2004. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. Derral Macon Hodgkins, as sole proprietor, was a person in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
4. The violations of Commission rules committed by respondent are related to safety and the control of pollution.

5. Respondent designated itself to the Commission as the operator of Well Nos. 1, 2 and 3 on the W.J. Shelton Et Al. (05762) Lease ("subject wells"/"subject lease") by filing a Form P-4 (Producers Transportation Authority and Certificate of Compliance) with the Commission effective on February 1, 1997.
6. According to Commission records the Respondent's Form P-5 (Organization Report) became delinquent on December 1, 1999. Respondent paid a fee of \$2,000.00 as its financial assurance at the time of its last P-5 renewal.
7. The subject wells ceased production on or before October 31, 1999.
8. The subject wells have not been properly plugged in accordance with, and are not otherwise in compliance with, Statewide Rule 14.
9. Usable quality groundwater in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject wells. Unplugged wellbores constitute a cognizable threat to the public health and safety because of the probability of pollution.
10. The estimated cost to the State of plugging the subject wells is \$5,300.00.
11. Commission district office inspections were conducted on March 24, 2003, August 4, 2003 and August 14, 2003 for the W. J. Shelton Et Al. (05762) Lease. Well No. 1 has tubing open to the atmosphere and Well Nos. 2 and 3 have casing open to the atmosphere.
12. Maintenance of surface control by wellhead assemblies is necessary to prevent the discharge of oil and gas wastes on the subject lease constituting a hazard to public health and safety because the discharges of oil and gas wastes onto land surface can migrate into surface or subsurface waters.
13. The Respondent has not demonstrated good faith since it failed to plug or otherwise place the subject lease and subject wells in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
14. The Railroad Commission spent a total of \$540.00 cleaning up the subject lease and wells.

#### **CONCLUSIONS OF LAW**

1. Proper notice was issued by the Railroad Commission to respondent and to all other appropriate persons legally entitled to notice.
2. All things necessary to the Commission attaining jurisdiction over the subject matter and the parties in this hearing have been performed or have occurred.
3. Respondent was in violation of Commission Statewide Rules 13(b)(1)(B) and 14(b)(2).
4. Respondent is responsible for maintaining the subject lease in compliance with Rule 13(b)(1)(B), which requires that surface control of all wells be maintained with wellhead assemblies.

5. Respondent is responsible for maintaining the subject lease and plugging of the subject wells in compliance with all applicable Commission rules according to Statewide Rules 14, 58, and 79 and Chapters 89 and 91 of the Texas Natural Resources Code.
6. The documented violations committed by the respondent constitute acts deemed serious, a hazard to the public health, and demonstrate a lack of good faith pursuant to TEX. NAT. RES. CODE ANN. §81.0531(c) (Vernon 2001).
7. As a person in a position of ownership or control of respondent at the time respondent violated Commission rules related to safety and the control of pollution, Derral Macon Hodgkins, and any other organization in which he may hold a position of ownership or control, shall be subject to the restrictions of Texas Natural Resource Code Section 91.114(a)(2) for a period of no more than seven years from the date the order entered in this matter becomes final, or until the conditions that constituted the violations herein are corrected or are being corrected in accordance with a schedule to which the Commission and the organization have agreed; and all administrative, civil, and criminal penalties and all cleanup and plugging costs incurred by the State relating to those conditions are paid or are being paid in accordance with a schedule to which the Commission and the organization have agreed, whichever is earlier.
8. Respondent is responsible for cleaning up the discharges on the subject lease under Tex. Nat. Res. Code Ann. §91.113(b), and the Commission may recover from Respondent all costs incurred in cleaning up the subject lease pursuant to Tex. Nat. Res. Code Ann. §91.113(f).
