**OIL AND GAS DOCKET NO. 09-0273511**

**ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY XOPHI ENERGY, LLC (945927), AS TO THE PERKINS (20611) LEASE, WICHITA COUNTY REGULAR FIELD, WICHITA COUNTY, TEXAS**

---

**FINAL ORDER**

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on March 15, 2012 and that the respondent, Xophi Energy, LLC (945927), failed to appear or respond to the Notice of Opportunity for Hearing. Pursuant to §1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

**FINDINGS OF FACT**

1. Xophi Energy, LLC (945927), ("Respondent") was given a Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 Organization Report.
2. The returned certified receipt attached to the Original Complaint and the Notice of Opportunity for Hearing mailed to Respondent's most recent P-5 address, was returned to the Commission marked "return to sender, unable to forward" on December 27, 2011. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. On March 23, 2010, Respondent, a Corporation, filed an Organization Report (Form P-5) with the Commission reporting that its officers consisted of the following individual(s): Richard Ashton; President.
4. Richard Ashton, was in a position of ownership or control of respondent, as defined by Texas Natural Resources Code Section 91.114, during the time period of the violations of Commission rules committed by respondent.
5. The violations of Commission rules committed by respondent are related to safety and the control of pollution.
6. Respondent designated itself to the Commission as the operator of the Perkins (20611) Lease ("subject well"/"subject lease") by filing a P-4 Form (Producer's Transportation Authority and Certificate of Authority) effective on January 26, 2010.

7. Commission records indicate that Respondent's Form P-5 (Organization Report) became delinquent on February 1, 2011. Respondent had a \$50,000.00 bond as its financial assurance at the time of its last P-5 renewal.
8. A Commission District inspection was conducted on September 30, 2011 for the Perkins (20611) Lease. A steel tank was seeping oil and affecting a 4' x 8' x 2" deep area. A 2' x 1' x 2" deep area under the manhole cover in the back of the same tank was also found to be oil saturated. A follow up inspection conducted on October 17, 2011 show the affected areas had not been cleaned. In addition an 8' x 3' oil skim was found floating on top of standing water inside the firewall. The inspection made on January 11, 2012 showed the above violations continue, with the depth of the polluted area at the seeping tank, to be approximately 12" deep and no oil was found on the water inside the firewall.
9. No permit has been issued to Respondent for the discharge of oil and gas wastes on or from the subject lease.
10. The unpermitted discharges of oil and gas wastes or other substances or materials on the subject lease constitute a hazard to public health and safety because leaks and spills of oil and produced waters onto soils can migrate into surface water bodies causing contamination or can leach into the ground and percolate through soils into groundwater supplies.
11. The Respondent did not demonstrate good faith since it failed to place the subject lease in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.
12. Respondent has a prior history of Commission rule violations including the following docket(s):  
  
Docket No. 01-0261382; Final Order Served: December 16, 2009; and  
Docket No. 7C-0260958; Final Order Served: December 21, 2010.

4. Respondent is responsible for maintaining the subject lease in compliance with Statewide Rule which prohibits the discharge of oil and gas wastes without a permit.
5. Respondent is responsible for maintaining the subject lease in compliance with all applicable Commission rules according to Statewide Rules 14, 58, and 79 and Chapters 89 and 91 of the Texas Natural Resources Code.
6. The documented violations committed by the respondent constitute acts deemed serious, a hazard to the public health, and demonstrate a lack of good faith pursuant to TEX. NAT. RES. CODE ANN. §81.0531.
