

**RAILROAD COMMISSION OF TEXAS
OFFICE OF GENERAL COUNSEL
HEARINGS SECTION**

**OIL AND GAS DOCKET
NO. 03-0243743**

**IN THE FOSTER (WILCOX CONS.)
FIELD, MONTGOMERY COUNTY,
TEXAS**

**FINAL ORDER
COMBINING VARIOUS FOSTER WILCOX FIELDS,
ADOPTING A DESIGNATION OF FOSTER (WILCOX CONS.) FIELD
FOR THE FIELD FORMED BY SUCH COMBINATION OF FIELDS
AND ADOPTING OPERATING RULES AND REGULATIONS
FOR THE FOSTER (WILCOX CONS.) FIELD
MONTGOMERY COUNTY, TEXAS**

The Commission finds that after statutory notice in the above-numbered docket heard on August 31, 2005, the presiding examiner has made and filed a report and recommendation containing findings of fact and conclusions of law, for which service was not required; that the proposed application is in compliance with all statutory requirements; and that this proceeding was duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas.

The Commission, after review and due consideration of the examiner's report and recommendation, the findings of fact and conclusions of law contained therein, hereby adopts as its own the findings of fact and conclusions of law contained therein, and incorporates said findings of fact and conclusions of law as if fully set out and separately stated herein.

Therefore, it is ordered by the Railroad Commission of Texas that the Foster (Wilcox, Lower 11350), Foster (Wilcox C), Foster (Wilcox D), Foster South (Wilcox "C"), Foster (Wilcox 8983), Foster (Wilcox D, South) and Wildcat Fields in Montgomery County, Texas, be and they are hereby combined and recognized as one field, to be known as the Foster (Wilcox Cons.) Field (RRC ID NO. 32307-752), Montgomery County, Texas.

It is further ordered by the Commission that the operating rules as hereinafter set out are hereby adopted for the Foster (Wilcox Cons.) Field, Montgomery County, Texas.

RULE 1: The entire combined correlative interval from 7,610' to 11,850' as shown on the Dual Induction log of the Shield Resources, Inc., Foster Lease Well No. 5 (API No. 42-339-30734), Jose M. De La Garza Survey, A-15, Montgomery County, Texas, shall be designated as a single reservoir for proration purposes and be designated as the Foster (Wilcox Cons.) Field.

RULE 2: No well for gas shall hereafter be drilled nearer than FOUR HUNDRED AND SIXTY-SEVEN (467) feet to any property line, lease line, or subdivision line and no between well spacing requirement. The aforementioned distances in the above rule are minimum distances to allow an operator flexibility in locating a well, and the above spacing rule and the other rules to

follow are for the purpose of permitting only one well to each drilling and proration unit. Provided however, that the Commission will grant exceptions to permit drilling within shorter distances and drilling more wells than herein prescribed whenever the Commission shall have determined that such exceptions are necessary either to prevent waste or to prevent the confiscation of property. When exception to these rules is desired, application therefor shall be filed and will be acted upon in accordance with the provisions of Commission Statewide Rules 37 and 38, which applicable provisions of said rules are incorporated herein by reference.

In applying this rule, the general order of the Commission with relation to the subdivision of property shall be observed.

RULE 3: The acreage assigned to the individual gas well for the purpose of allocating allowable gas production thereto shall be known as a proration unit. The standard drilling and proration units are established hereby to be FORTY (40) acres. No proration unit shall consist of more than FORTY (40) acres; provided that, tolerance acreage of ten (10) percent shall be allowed for each standard proration unit so that an amount not to exceed a maximum of FORTY-FOUR (44) acres may be assigned. The two farthestmost points in any proration unit shall not be in excess of TWENTY-ONE HUNDRED (2,100) feet removed from each other. Each proration unit containing less than FORTY (40) acres shall be a fractional proration unit. All proration units shall consist of continuous and contiguous acreage which can reasonably be considered to be productive of gas. No double assignment of acreage will be accepted.

Operators shall file with the Commission certified plats of their properties in said field, which plats shall set out distinctly all of those things pertinent to the determination of the acreage credit claimed for each well; provided that if the acreage assigned to any proration unit has been pooled, the operator shall furnish the Commission with such proof as it may require as evidence that interests in and under such proration unit have been so pooled.

RULE 4: The daily allowable production of gas from individual wells completed in a non-associated gas reservoir of the subject field shall be determined by allocating the allowable production, after deductions have been made for wells which are incapable of producing their gas allowables, among the individual wells in the following manner:

NINETY-FIVE percent (95%) of the total field allowable shall be allocated among the individual wells in the proportion that the deliverability of such well, as evidenced by the most recent G-10 test filed with the Railroad Commission bears to the summation of the deliverability of all proratable wells producing from this field.

FIVE percent (5%) of the total field allowable shall be allocated equally among the proratable wells in the field.

Further, it is ordered by the Railroad Commission of Texas that suspension of the allocation formula in the Foster (Wilcox Cons.) Field is approved. The allocation formula may be reinstated administratively if the market demand for gas in the Foster (Wilcox Cons.) Field drops below 100%

of deliverability. If the market demand for gas in the Foster (Wilcox Cons.) Field drops below 100% of deliverability while the allocation formula is suspended, the operator shall immediately notify the Commission and the allocation formula shall be immediately reinstated. Failure to give such notice to the Commission may result in a fine (as provided for in Tex. Nat. Res. Code §86.222) for each day the operators fail to give notice to the Commission.

Done this the _____ day of _____, 2005.
