

**RAILROAD COMMISSION OF TEXAS  
OFFICE OF GENERAL COUNSEL  
HEARINGS SECTION**

**OIL AND GAS DOCKET  
NO. 7C-0272346**

**IN THE FUNK (SAN ANDRES) FIELD,  
IRION AND TOM GREEN COUNTIES,  
TEXAS**

**ORDER NUNC PRO TUNC**

**ORDER AMENDING AND RENUMBERING FIELD RULES FOR THE  
FUNK (SAN ANDRES) FIELD  
IRION AND TOM GREEN COUNTIES, TEXAS**

In conference at its office in Austin, Texas, the Railroad Commission of Texas took up for consideration in its Final Order entered on October 25, 2011, the matter of amending and renumbering Field Rules for the Funk (San Andres) Field, Irion and Tom Green Counties, Texas. The Commission finds that, due to clerical error, the Final Order entered on October 25, 2011, incorrectly stated the most efficient rate of production for all wells in the Funk (San Andres) Field.

Accordingly, it is **ORDERED** that the Final Order in Docket No. 7C-0272346 be, and the same is hereby amended *nunc pro tunc*, so that Field Rule No. 4 for the Funk (San Andres) Field is replaced as follows:

It is further **ORDERED** that the most efficient rate of production at the current time for each well in the Funk (San Andres) Field (ID No. 33319 500), Irion and Tom Green Counties, Texas, is established at 35 barrels of oil per day, regardless of the number of acres assigned to each well for proration purposes.

Done this 8<sup>th</sup> day of November, 2011.

**RAILROAD COMMISSION OF TEXAS**
