## Amend §3.86 and other rules re: UFT fields

### Amend §3.86 and other rules re: UFT fields

I want to comment on the proposed rule changes by the Railroad commission in regards to allowing engineers to certify a boundary survey plat. Professional Engineers should NOT be allowed to certify a boundary survey plat and should only be certified by a Professional Land Surveyor. An engineer does not have the knowledge of boundary law or the education or certification to stamp and certify a boundary survey plat.

Railroad Commission of Texas | (877) 228-5740 | 1701 N. Congress, Austin, Texas 78701
