Amend §3.86 and other rules re: UFT fields

Amend §3.86 and other rules re: UFT fields

I generally support these proposed changes to the rules in Chapter 3, Oil and Gas Division of 16 TAC section 3.86 and thank the Railroad Commission for the work that went into drafting the proposed new rules. It is my opinion though that authorizing registered engineers to certify the plats defined in the rules would conflict with Chapters 1001 and 1071 of the Texas Occupations Code. Engineers are not qualified to sign the plats and the proposed rule should be revised to allow or require only a registered professional land surveyor to certify the plats. Thank you.
