**APPROVING THE APPLICATION OF  
SCHKADE BROS. OPERATING COMPANY  
CHRANE (HOPE) FIELD  
CALLAHAN COUNTY, TEXAS**

In conference at its office in Austin, Texas, the Railroad Commission of Texas took up for consideration its Final Order entered on August 9, 2016, the matter granting Schkade Bros. Operating Company authority to place artificial vacuum of up to 25-inches of mercury on its Chrane Lease, Well No. 1, completed in the Chrane (Hope) Field, Callahan County, Texas. The Commission finds that the Final Order entered August 9, 2016, erroneously excludes the well name Chrane Lease, Well No. 1.

Accordingly, it is **ORDERED** that the Final Order in Oil and Gas Docket No. 7B-0300030 be, and the same is hereby, amended *nunc pro tunc* so that the Final Order correctly states the authority granted is for the Chrane Lease, Well No. 1.

The Commission, after review and due consideration of the examiners' report and recommendation, the findings of fact and conclusions of law contained therein, hereby adopts as its own the findings of fact and conclusions of law contained therein, and incorporates said findings of fact and conclusions of law as if fully set out and separately stated herein.

Therefore, it is **ORDERED** by the Railroad Commission of Texas that Schkade Bros. Operating Company (P-5 Operator No. 752600) is hereby granted authority to place an artificial vacuum of up to 25-inches of mercury on the Chrane Lease, Well No. 1 in the Chrane (Hope) Field, effective March 28, 2016.
