

RAILROAD COMMISSION OF TEXAS

Oil and Gas Division

NOTICE TO OIL AND GAS OPERATORS

Form H-9, Certificate of Compliance, Statewide Rule 36 (Hydrogen Sulfide), Online Filing Available

As part of the Texas Oilfield Relief Initiative, the Railroad Commission of Texas (RRC) is encouraging oil and gas operators to file the Form H-9, *Certificate of Compliance, Statewide Rule 36 (Hydrogen Sulfide)*, online using the RRC Online System at <https://webapps.rrc.texas.gov/security/login.do>. To view the *Certificate of Compliance Statewide Rule 36 User Guide*, visit the RRC website at http://webapps.rrc.texas.gov/H9/resources/docs/H-9_User_Guide.pdf.

The Form H-9 is required to certify that an operator has complied or will comply with 16 Texas Administrative Code §3.36 (Statewide Rule 36).

Existing users with accounts in the RRC Online System do not need to designate a new security administrator. The organization's security administrator needs only to assign rights for filing online through their administration accounts to grant their users access. If your company needs to set up security administrator rights to file online using the RRC Online System, view the instructions on RRC website at <https://www.rrc.texas.gov/forms/online-filing-at-rrc/>.

While the RRC will continue to accept hard copy filings of the form, operators are highly encouraged to file online to save staff time and resources. The form is available for download from the RRC website at <https://www.rrc.texas.gov/oil-and-gas/oil-and-gas-forms/>.

If you have questions regarding this notice, contact the Field Operations department of the Oil and Gas Division at OG_FOPS@rrc.texas.gov or 512-463-6838 for assistance.
