The *Monthly Summary of Texas Natural Gas* is on the RRC website at <https://www.rrc.texas.gov/oil-and-gas/research-and-statistics/production-data/monthly-summary-of-texas-natural-gas/>. This report contains 13 tables of data on natural gas production, disposition, natural gas liquids production, gas storage and other information in statewide and district summaries.

Much of the information used to compile the *Monthly Summary of Texas Natural Gas* comes from more than 2,000 Form R-3's, *Monthly Report for Gas Processing Plants*, that are filed each month. The Commission is currently developing a new system to process Form R-3, and this is an ideal time to consider potential changes to the *Monthly Summary of Texas Natural Gas*.
