APPLICATION FOR COMMISSION IDENTIFICATION NAMEPLATE INSTALLATION

Please Type or Print

Prior to an original ASME nameplate of any manufacturer-issued nameplate becoming unreadable or detached from a stationary container with a water capacity of 4,001 gallons or more, the owner or operator of the container may request an identification nameplate from the Commission. Commission identification nameplates may be issued only for containers, which can be documented as being in continuous LP-Gas service in Texas from a date prior to September 1, 1984. Section 9.130 of the *LP-Gas Safety Rules* requires the owner or operator of the container to submit an LPG Form 502, including a photographs of the container showing: nozzle openings; front, rear, and side views; location of nameplate; detailed view of nameplate. If a photograph cannot clearly depict the lettering on the nameplate a pencil rubbing of the nameplate shall be submitted. Upon review and confirmation of the submitted material, a letter will be sent to the applicant stating the estimated cost.
