|                        |        |                |                      |                        |                |                        |                           |                                                      |

**Notes:**

- The table lists the number of leases, reported wells, total allowable barrels, reported production, method of disposition, and closing stock for each field.
- The fields listed include fewer than 50 entries, each with varying numbers of reported wells and production levels.
- The closing stock column indicates the barrels in stock for each entry.
- The method of disposition column specifies how production is reported.

**Calculation:**

The table provides a comprehensive view of reported production across various fields, indicating a significant focus on barrels reported and production levels.
