RAILROAD COMMISSION OF TEXAS
HEARINGS DIVISION

OIL AND GAS DOCKET
NO. 08-0297349

IN THE REEVES-BLOCK 4 (DEL. 4430)
FIELD, REEVES COUNTY, TEXAS

FINAL ORDER
APPROVING THE APPLICATION OF
SBHES PECOS SWD, LLC, PURSUANT TO STATEWIDE RULE 9 FOR A PERMIT
TO DISPOSE OF OIL AND GAS WASTE BY INJECTION INTO A POROUS
FORMATION NOT PRODUCTIVE OF OIL AND GAS, SBHES PECOS SWD LEASE,
WELL NO.1, REEVES-BLOCK 4 (DEL. 4430) FIELD, REEVES COUNTY, TEXAS

The Commission finds that after statutory notice in the above-numbered docket
heard on January 4, January 5, and February 6, 2017, the presiding Examiners have
made and filed a report and proposal for decision containing findings of fact and
conclusions of law, which was served on all parties of record; that the proposed
application submitted by SBHES PECOS SWD, LLC, is in compliance with all statutory
requirements; and that this proceeding was duly submitted to the Railroad Commission
of Texas at conference held in its offices in Austin, Texas.

The Commission, after review and due consideration of the Examiners' report and
proposal for decision, the findings of fact and conclusions of law contained therein, and
any exceptions and replies thereto, hereby adopts as its own the findings of fact and
conclusions of law contained therein, and incorporates said findings of fact and
conclusions of law as if fully set out and separately stated herein.

Therefore, it is ORDERED by the Railroad Commission of Texas that the
application of SBHES PECOS SWD, LLC to conduct commercial disposal operations into
the SBHES Pecos SWD Lease, Well No.1, Reeves-Block 4 (Del. 4430) Field, Reeves
County, Texas at a rate of 25,000 bbls/d is hereby GRANTED, subject to the following
terms and conditions:

SPECIAL CONDITIONS:

1. The permittee shall, in addition to standard Form H-10 Annual Disposal/Injection
Well Monitoring Report, collect and record accurate daily injected volumes and maximum
daily injection pressures and make this data available to the Commission upon request.

STANDARD CONDITIONS:

1. Injection must be through tubing set on a packer. The packer must be set no
higher than 100 feet above the top of the permitted interval.

2. The District Office must be notified 48 hours prior to:
   a. running tubing and setting packer;
   b. beginning any workover or remedial operation;
   c. conducting any required pressure tests or surveys.
3. The wellhead must be equipped with a pressure observation valve on the tubing and for each annulus.

4. Prior to beginning injection and subsequently after any workover, an annulus pressure test must be performed. The test pressure must equal the maximum authorized injection pressure or 500 psig, whichever is less, but must be at least 200 psig. The test must be performed annually and the results submitted in accordance with the instructions of Form H-5.

5. The injection pressure and injection volume must be monitored at least monthly and reported annually on Form H-10 to the Commission's Austin office.

6. Within 30 days after completion, conversion to disposal, or any workover which results in a change in well completion, a new Form W-2 or G-1 must be filed to show the current completion status of the well. The date of the disposal well permit and the permit number must be included on the new Form W-2 or G-1.

7. Written notice of intent to transfer the permit to another operator by filing Form P-4 must be submitted to the Commission at least 15 days prior to the date of the transfer.

8. A well herein authorized cannot be converted to a producing well and have an allowable assigned without filing an amended Form W-1 and receiving Commission approval.

9. Unless otherwise required by conditions of the permit, completion and operation of the well shall be in accordance with the information represented on the application (Form W-14).

10. This permit will expire when the Form W-3, Plugging Record, is filed with the Commission. Furthermore, permits issued for wells to be drilled will expire three (3) years from the date of the permit unless drilling operations have commenced.

11. The permit number shall be 15526.

Provided further that, should it be determined that such injection fluid is not confined to the approved interval, then the permission given herein is suspended and the injection operation must be stopped until the fluid migration from such interval is eliminated. Failure to comply with all of the conditions of this permit may result in the operator being referred to enforcement to consider assessment of administrative penalties and/or the cancellation of the permit.
Each exception to the Examiners' proposal for decision not expressly granted herein is overruled. All requested findings of fact and conclusions of law which are not expressly adopted herein are denied. All pending motions and requests for relief not previously granted or granted herein are denied.

It is further ORDERED by the Commission that this order shall not be final and effective until 25 days after the Commission’s Order is signed, unless the time for filing a motion for rehearing has been extended under Tex. Gov’t Code §2001.142, by agreement under Tex. Gov’t Code §2001.147, or by written Commission Order issued pursuant to Tex. Gov’t Code §2001.146(e). If a timely motion for rehearing of an application is filed by any part at interest, this order shall not become final and effective until such a motion is overruled, or if such motion is granted, this order shall be subject to further action by the Commission. Pursuant to Tex. Gov’t Code §2001.146(e), the time allotted for Commission action on a motion for rehearing in this case prior to its being overruled by operation of law is hereby extended until 90 days from the date the Commission Order is signed.

Done this 19th day of September 2017.
