RATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	Participating Gas Utility for the Unincorporated area of the Corix Utilities
	(Texas) Inc.s service area under the terms of the Financing Order. Each individual
	Sales Customer is responsible for paying the CRR Charge billed to it in accordance
	with the terms of this rate schedule. Payment is to be made by an individual Sales Customer to the Participating Gas Utility of which it is a customer. The
	Participating Gas Utility is obligated to apply amounts collected from customers to
	pay any outstanding CRR Charges prior to applying such amounts for any other
	purpose. The Participating Gas Utility, as collection agent, all remit collections
	of the CRR Charges to the Indenture Trustee in accordance with the terms of the
	Financing Order and any servicing or other similar agreement that is contemplated by the Financing Order.
	by the Financing order.
	C. TERM This rate schedule shall remain in effect until the CRR Charges have been
	collected and remitted to the Indenture Trustee in an amount sufficient to satisfy
	all obligations in regard to paying principal and interest on the CRR Bonds
	together with all other financing costs, bond administrative expenses and other costs as provided in the Financing Order. This rate schedule and the CRR Charge are
	irrevocable and nonbypassable.
	D. SALES CUSTOMERS For the purposes of billing the CRR Charges, all Sales Customers
	of the Participating Gas Utilitys unincorporated service area shall be assessed the
	uniform volumetric charge identified below.
	E. CRR CHARGE The CRR Charge will be a monthly volumetric rate of \$1.18/Mcf. The
	CRR Charge is calculated in accordance with and subject to the provisions set forth in the Financing Order and will be adjusted at least annually based upon the CRR
	Charge true- up adjustment procedure. The CRR Charge shall be included in the
	Participating Gas Utilitys Purchased Gas Adjustment, Cost of Gas Clause, or other
	equivalent tariff established for the collection of natural gas costs.
	Participating Gas Utilities may reflect the CRR Charge according to the delivery pressures defined in Participating Gas Utilities applicable tariffs. Such delivery
	pressure specific charges shall be equivalent to the CRR Charge as determined below
	at 14.65 per square inch, as defined above.
	F. DETERMINATION OF CUSTOMER RATE RELIEF CHARGE The CRR Charge will be adjusted no
	less frequently than annually, in accordance with the terms of the Servicing
	Agreement (as defined in the Financing Order), to ensure that the expected
	collection of CRR Charges is adequate to pay when due, pursuant to the expected amortization schedule, principal and interest on the CRR Bonds and together with
	all other financing costs, bond administrative expenses and other costs, as
	provided in the Financing Order, on a timely basis. The CRR Charge shall be
	computed according to the formula described below.
	Step 1: Determination of Normalized Sales Volumes
	(A) Total Large Participating Gas Utility Normalized Sales Volumes (Mcf)
	(B) Assumed % of uncollectible sales $(C) Total Normalized Sales Volumes Billed and Collected: (A * (1 ` B))$
	(C) Total Normalized Sales Volumes Billed and Collected: (A * (1 ` B))

ATE SCHEDULE	
SCHEDULE ID	DESCRIPTION
	For the avoidance of doubt, Normalized Sales Volumes are assumed to be calculated without giving effect to volumes anticipated from Participating Gas Utilities making up less than two percent (2.0%) of the total Normalized Sales Volumes of all Participating Gas Utilities.
	Step 2: Determination of CRR Charge
	(D) Total CRR Charge Rate Revenue Requirement for Applicable Period (E) CRR Charge per Normalized Sales Volumes (Mcf): (D / C) Thereof: CRR Charge for Sales Customers
	G. CRR CHARGE TRUE-UP Changes to the CRR Charge will be effected through the filing of CRR Charge True-Up Adjustment Letters by the Central Servicer to the Commission as authorized by the Financing Order and in accordance with the Servicing Agreement. Not less than fifteen (15) days prior to each CRR Scheduled Adjustment Date and more frequently as required by the Central Servicer, the Central Servicer will submit the CRR Charge True-Up Adjustment Letter in the form of Exhibit 3 to the Financing Order to ensure that CRR Charge collections are sufficient to make all scheduled payments of CRR Bond principal and interest and meet other Ongoing Financing Costs (as defined in the Financing Order) on a timely basis during the payment period. In addition to the foregoing, the Central Servicer shall be authorized to file CRR Charge True-Up Adjustment Letters with the Commission that adjust the CRR Charge more frequently (but not more often than quarterly) as required under the provisions of the Servicing Agreement (as defined in the Financing Order).
	H. CRR CHARGE TRUE-UP PROCEDURE Corix Utilities (Texas) Inc. shall annually file with the Commission and the Central Servicer by June 1 of each year its Normalized Sales Volumes; each Large Participating Gas Utility shall include projected volumes for each of the future twelve (12) months beginning July 1, and each other Participating Gas Utility shall include its Normalized Sales Volumes for the prior calendar year. Such filing and/or reporting may be more frequent to the extent required under the Servicing Agreement and applicable Collection and Reporting Arrangements. If Corix Utilities (Texas) Inc. is a Large Participating Gas Utility, the Participating Gas Utility shall, upon the request of the Central Servicer, provide the Commission and the Central Servicer updated Normalized Sales Volumes for the succeeding twelve (12) month period no later than the fifteenth (15th) day following such request to allow the Central Servicer to make Interim True-Up Adjustments. Each Participating Gas Utility shall have the right to provide the foregoing information to the Central Servicer on a confidential basis if reasonably necessary to ensure compliance with applicable securities laws (subject to any (i) legal requirements necessitating the disclosure of such information, including compliance with (A) applicable securities laws and (B) other generally applicable laws and (ii) certain customary restrictions and exceptions to be agreed). The Central Servicer shall submit to the Commission and the Participating
	Gas Utilities, not less than fifteen (15) days prior to the CRR Scheduled Adjustment Date, a CRR Charge True-Up Adjustment Letter applying the CRR Charge True-Up Adjustment based on Normalized Sales Volumes and other mathematical factors

	and requesting administrative approval from the Commission as provided for in the Servicing Agreement. The Commissions review and approval of the True-Up Adjustment Letter shall be as set forth in the Servicing Agreement (it being understood such review is limited to determining if any mathematical or clerical errors are present in the application of the CRR Charge True-Up Adjustment relating to the appropriate amount of any over- collection or under-collection of CRR Charges and the amount of an adjustment).
	If any CRR Charge True-Up Adjustment that is an Interim True-Up Adjustment is necessary, (i) the Central Servicer may request and the Large Participating Gas Utilities shall provide revised Normalized Sales Volumes for each of the immediately succeeding twelve (12) months and related data and (ii) within fifteen (15) days of receipt of such data, the Central Servicer shall file a revision to the CRR Rate Schedule in a True-Up Charge Adjustment Letter setting forth the adjusted CRR Charge to be effective for the upcoming period, in accordance with the Servicing Agreement. The Corix Utilities (Texas) Inc. shall have the right to provide such information on a confidential basis if reasonably necessary to ensure compliance with applicable securities laws (subject to any (i) legal requirements necessitating the disclosure of such information, including compliance with (A) applicable securities laws and (B) other generally applicable laws and (ii) certain customary restrictions and exceptions to be agreed). A CRR Charge resulting from a true-up adjustment will become effective on the first (1st) billing cycle that is not less than fifteen (15) days following the making of the CRR Charge True-Up Adjustment filing.
	I. TAXABILITY The receipt of CRR Charges by a Participating Gas Utility is exempt from state and local sales and use taxes and utility gross receipts taxes and assessments and is excluded from revenue for purposes of franchise tax under Tex. Tax Code 171.1011.

CURTAILMEN	Γ PLAN
PLAN ID	DESCRIPTION
7455	7.455 Curtailment Standards (a) Definitions. The following words and terms, when used in this section, shall have the following meanings, unless the context clearly indicates otherwise.
	(1) Balancing authorityThe Electric Reliability Council of Texas or other responsible entity that integrates resource plans ahead of time, maintains electricity demand and resource balance within a balancing authority area, and supports interconnection frequency in real time for a power region in Texas.
	(2) CommissionThe Railroad Commission of Texas.
	(3) Curtailment eventWhen a gas utility determines that its ability to deliver gas may become inadequate to support continuous service to firm customers on its system and it reduces deliveries to one or more firm customers. For the purposes of this section, an interruption of delivery or service to interruptible gas customers does not constitute a curtailment event. Prior to reducing deliveries to one or more firm customers, a gas utility interrupts deliveries to interruptible customers pursuant to mutually agreed upon contracts and/or tariffs.
	(4) Electric generation facilitiesFacilities registered with the applicable balancing authority including bulk power system assets, co-generation facilities, distributed generation, and or backup power systems.
	(5) Firm or firm deliveriesNatural gas deliveries that are described as firm under a contract or tariff.
	(6) Gas utilityAn entity that operates a natural gas transmission pipeline system or a local distribution company that is subject to the Commission?s jurisdiction as defined in Texas Utilities Code, Title 3.
	 (7) Human needs customersResidences, hospitals, water and wastewater facilities, police, fire, military and civil defense facilities, and locations where people may congregate in an emergency, such as schools and places of worship. A human needs customer also includes small commercial customers that cannot practicably be curtailed without curtailing human needs. (8) Interruptible or interruptible deliveriesNatural gas deliveries that are not described as firm under a contract or tariff.
	(b) Applicability. This section takes effect on September 1, 2022. This section applies when any gas utility experiences a curtailment event affecting intrastate service on any of its intrastate natural gas pipelines. When a gas utility experiences a curtailment event, the gas utility shall curtail deliveries according to the priorities listed in subsection (c) of this section unless and until the gas utility has an approved curtailment plan pursuant to subsection (d) of this section. The curtailment priorities in this section apply to sales of natural gas owned by a gas utility and/or deliveries utilizing a gas utility?s transportation capacity. The priorities in this section do not apply to sales of gas owned by an entity that is not a gas utility. The term ?deliveries? in this section includes sales and/or transportation service.
	(c) Priorities.
	(1) Unless a gas utility has an approved curtailment plan pursuant to subsection (d) of this section, a gas utility shall apply the following priorities in descending order during a curtailment event:

(A) firm deliveries to human needs customers and firm deliveries of natural gas to local distribution systems which serve human needs customers;

	(B) firm deliveries to electric generation facilities;
	(C) firm deliveries to industrial and commercial users of the minimum natural gas required to
	prevent physical harm and/or ensure critical safety to the plant facilities, to plant
	personnel, or the public when such protection cannot be achieved through the use of an
	alternate fuel;
	(D) firm deliveries of natural gas to small industrials and regular commercial loads that use less than 3,000 Mcf per day;
	(E) firm deliveries to large industrial and commercial users for fuel or as a raw material
	where an alternate fuel or raw material cannot be used and operation and plant production
	would be curtailed or shut down completely when natural gas is curtailed;
	(F) firm deliveries to large industrial and commercial users for fuel or as a raw material
	where an alternate fuel or raw material can be used and operation and plant production would
	be curtailed or shut down completely when natural gas is curtailed; and
	(G) firm deliveries to customers that are not covered by the priorities listed in
	subparagraphs (A) - (F) of this paragraph.
	(2) Policypring to quaterpart within the game priority on the particular of the quater which is
	(2) Deliveries to customers within the same priority on the portion of the system which is subject to curtailment shall be curtailed to the extent practicable on a pro rata basis
	according to scheduled quantities. If a customer's end-use requirements fall under two or more
	priorities, then such requirements must be treated separately when applying this schedule of
	priorities to the extent practicable. Transportation customers have equivalent end-use
	priorities as sales customers.
	(3) When applying the priorities of this section, a gas utility may rely on the
	representations of its customers and/or their end users regarding the nature of customers?
	deliveries.
	(d) Curtailment plans. Order 489 and any curtailment plan approved by the Commission prior to
	the effective date of this section is superseded by this section. A gas utility may file its
	own curtailment plan for approval with the Oversight and Safety Division. A gas utility shall
	follow the priorities listed in subsection (c) of this section unless and until the gas
	utility has an approved curtailment plan on file with the Commission. The first three
	priorities in any individual curtailment plan must be consistent with the first three
	priorities listed in subsection (c)(1)(A) - (C) and (2) of this section. A gas utility shall
	provide to its customers notice of an application for a curtailment plan. A gas utility shall
	provide notice on the same day the gas utility files its application with the Commission. The
	gas utility may provide notice by hand delivery, by first class, certified, registered mail,
	commercial delivery service, electronic methods, or by such other manner as the Commission may
	require. The notice shall be in the form prescribed by the Commission. The Oversight and Safety Division may administratively approve the curtailment plan if no request for hearing is
	filed within thirty days of such notice. The Commission shall set the matter for hearing if it
	receives a timely request for hearing from a customer of the gas utility.
	(e) Required tariff filings. Within 90 days of the effective date of this section, each gas
	utility shall electronically file with the Commission, in the manner prescribed by the
	Commission, tariffs that shall include either:
	(1) the surtailment priorities as specified in this section: or
	(1) the curtailment priorities as specified in this section; or (2) a curtailment plan approved by the Commission as specified in subsection (d) of this
	(2) a carcariment pran approved by the commission as specified in subsection (a) of this

	Participating Gas Utility for the Unincorporated area of the Corix Utilities (Texas) Inc.s service area under the terms of the Financing Order. Each individual Sales Customer is responsible for paying the CRR Charge billed to it in accordance with the terms of this rate schedule. Payment is to be made by an individual Sales Customer to the Participating Gas Utility of which it is a customer. The Participating Gas Utility is obligated to apply amounts collected from customers to pay any outstanding CRR Charges prior to applying such amounts for any other
	pay any outstanding CRR charges pilof to apprying such amounts for any other purpose. The Participating Gas Utility, as collection agent, all remit collections of the CRR Charges to the Indenture Trustee in accordance with the terms of the Financing Order and any servicing or other similar agreement that is contemplated by the Financing Order.
	C. TERM This rate schedule shall remain in effect until the CRR Charges have been collected and remitted to the Indenture Trustee in an amount sufficient to satisfy all obligations in regard to paying principal and interest on the CRR Bonds together with all other financing costs, bond administrative expenses and other costs as provided in the Financing Order. This rate schedule and the CRR Charge are irrevocable and nonbypassable.
	D. SALES CUSTOMERS For the purposes of billing the CRR Charges, all Sales Customers of the Participating Gas Utilitys unincorporated service area shall be assessed the uniform volumetric charge identified below.
	E. CRR CHARGE The CRR Charge will be a monthly volumetric rate of \$1.18/Mcf. The CRR Charge is calculated in accordance with and subject to the provisions set forth in the Financing Order and will be adjusted at least annually based upon the CRR Charge true- up adjustment procedure. The CRR Charge shall be included in the Participating Gas Utilitys Purchased Gas Adjustment, Cost of Gas Clause, or other equivalent tariff established for the collection of natural gas costs. Participating Gas Utilities may reflect the CRR Charge according to the delivery pressures defined in Participating Gas Utilities applicable tariffs. Such delivery pressure specific charges shall be equivalent to the CRR Charge as determined below at 14.65 per square inch, as defined above.
	F. DETERMINATION OF CUSTOMER RATE RELIEF CHARGE The CRR Charge will be adjusted no less frequently than annually, in accordance with the terms of the Servicing Agreement (as defined in the Financing Order), to ensure that the expected collection of CRR Charges is adequate to pay when due, pursuant to the expected amortization schedule, principal and interest on the CRR Bonds and together with all other financing costs, bond administrative expenses and other costs, as provided in the Financing Order, on a timely basis. The CRR Charge shall be computed according to the formula described below.
	Step 1: Determination of Normalized Sales Volumes (A) Total Large Participating Gas Utility Normalized Sales Volumes (Mcf) (B) Assumed % of uncollectible sales (C) Total Normalized Sales Volumes Billed and Collected: (A * (1 ` B))

	For the avoidance of doubt, Normalized Sales Volumes are assumed to be calculated without giving effect to volumes anticipated from Participating Gas Utilities making up less than two percent (2.0%) of the total Normalized Sales Volumes of all Participating Gas Utilities.
	Step 2: Determination of CRR Charge
	(D) Total CRR Charge Rate Revenue Requirement for Applicable Period (E) CRR Charge per Normalized Sales Volumes (Mcf): (D / C) Thereof: CRR Charge for Sales Customers
	G. CRR CHARGE TRUE-UP Changes to the CRR Charge will be effected through the filing of CRR Charge True-Up Adjustment Letters by the Central Servicer to the Commission as authorized by the Financing Order and in accordance with the Servicing Agreement. Not less than fifteen (15) days prior to each CRR Scheduled Adjustment Date and more frequently as required by the Central Servicer, the Central Servicer will submit the CRR Charge True-Up Adjustment Letter in the form of Exhibit 3 to the Financing Order to ensure that CRR Charge collections are sufficient to make all scheduled payments of CRR Bond principal and interest and meet other Ongoing Financing Costs (as defined in the Financing Order) on a timely basis during the payment period. In addition to the foregoing, the Central Servicer shall be authorized to file CRR Charge True-Up Adjustment Letters with the Commission that adjust the CRR Charge more frequently (but not more often than quarterly) as required under the provisions of the Servicing Agreement (as defined in the Financing Order).
	H. CRR CHARGE TRUE-UP PROCEDURE Corix Utilities (Texas) Inc. shall annually file with the Commission and the Central Servicer by June 1 of each year its Normalized Sales Volumes; each Large Participating Gas Utility shall include projected volumes for each of the future twelve (12) months beginning July 1, and each other Participating Gas Utility shall include its Normalized Sales Volumes for the prior calendar year. Such filing and/or reporting may be more frequent to the extent required under the Servicing Agreement and applicable Collection and Reporting Arrangements. If Corix Utilities (Texas) Inc. is a Large Participating Gas Utility, the Participating Gas Utility shall, upon the request of the Central Servicer, provide the Commission and the Central Servicer updated Normalized Sales Volumes for the succeeding twelve (12) month period no later than the fifteenth (15th) day following such request to allow the Central Servicer to make Interim True-Up Adjustments. Each Participating Gas Utility shall have the right to provide the foregoing information to the Central Servicer on a confidential basis if reasonably necessary to ensure compliance with applicable securities laws (subject

	and requesting administrative approval from the Commission as provided for in the Servicing Agreement. The Commissions review and approval of the True-Up Adjustment Letter shall be as set forth in the Servicing Agreement (it being understood such review is limited to determining if any mathematical or clerical errors are present in the application of the CRR Charge True-Up Adjustment relating to the appropriate amount of any over- collection or under-collection of CRR Charges and the amount of an adjustment).
	If any CRR Charge True-Up Adjustment that is an Interim True-Up Adjustment is necessary, (i) the Central Servicer may request and the Large Participating Gas Utilities shall provide revised Normalized Sales Volumes for each of the immediately succeeding twelve (12) months and related data and (ii) within fifteen (15) days of receipt of such data, the Central Servicer shall file a revision to the CRR Rate Schedule in a True-Up Charge Adjustment Letter setting forth the adjusted CRR Charge to be effective for the upcoming period, in accordance with the Servicing Agreement. The Corix Utilities (Texas) Inc. shall have the right to provide such information on a confidential basis if reasonably necessary to ensure compliance with applicable securities laws (subject to any (i) legal requirements necessitating the disclosure of such information, including compliance with (A) applicable securities laws and (B) other generally applicable laws and (ii) certain customary restrictions and exceptions to be agreed). A CRR Charge resulting from a true-up adjustment will become effective on the first (1st) billing cycle that is not less than fifteen (15) days following the making of the CRR Charge True-Up Adjustment filing.
	I. TAXABILITY The receipt of CRR Charges by a Participating Gas Utility is exempt from state and local sales and use taxes and utility gross receipts taxes and assessments and is excluded from revenue for purposes of franchise tax under Tex. Tax Code 171.1011.

CURTAILMEN	T PLAN
PLAN ID	DESCRIPTION
7455	7.455 Curtailment Standards (a) Definitions. The following words and terms, when used in this section, shall have the following meanings, unless the context clearly indicates otherwise.
	(1) Balancing authorityThe Electric Reliability Council of Texas or other responsible entity that integrates resource plans ahead of time, maintains electricity demand and resource balance within a balancing authority area, and supports interconnection frequency in real time for a power region in Texas.
	(2) CommissionThe Railroad Commission of Texas.
	(3) Curtailment eventWhen a gas utility determines that its ability to deliver gas may become inadequate to support continuous service to firm customers on its system and it reduces deliveries to one or more firm customers. For the purposes of this section, an interruption of delivery or service to interruptible gas customers does not constitute a curtailment event. Prior to reducing deliveries to one or more firm customers, a gas utility interrupts deliveries to interruptible customers pursuant to mutually agreed upon contracts and/or
	tariffs. (4) Electric generation facilitiesFacilities registered with the applicable balancing authority including bulk power system assets, co-generation facilities, distributed generation, and or backup power systems.
	generation, and or backup power systems. (5) Firm or firm deliveriesNatural gas deliveries that are described as firm under a contract or tariff.
	(6) Gas utilityAn entity that operates a natural gas transmission pipeline system or a local distribution company that is subject to the Commission?s jurisdiction as defined in Texas Utilities Code, Title 3.
	 (7) Human needs customersResidences, hospitals, water and wastewater facilities, police, fire, military and civil defense facilities, and locations where people may congregate in an emergency, such as schools and places of worship. A human needs customer also includes small commercial customers that cannot practicably be curtailed without curtailing human needs. (8) Interruptible or interruptible deliveriesNatural gas deliveries that are not described as firm under a contract or tariff.
	(b) Applicability. This section takes effect on September 1, 2022. This section applies when any gas utility experiences a curtailment event affecting intrastate service on any of its intrastate natural gas pipelines. When a gas utility experiences a curtailment event, the gas utility shall curtail deliveries according to the priorities listed in subsection (c) of this section unless and until the gas utility has an approved curtailment plan pursuant to subsection (d) of this section. The curtailment priorities in this section apply to sales of natural gas owned by a gas utility and/or deliveries utilizing a gas utility?s transportation capacity. The priorities in this section do not apply to sales of gas owned by an entity that is not a gas utility. The term ?deliveries? in this section includes sales and/or transportation service.
	(c) Priorities.
	(1) Unless a gas utility has an approved curtailment plan pursuant to subsection (d) of this section, a gas utility shall apply the following priorities in descending order during a curtailment event:

(A) firm deliveries to human needs customers and firm deliveries of natural gas to local distribution systems which serve human needs customers;

RC COID:	9217 COMPANY NAME: CORIX UTILITIES (TEXAS) INC.
CARIFF CODE:	DS RRC TARIFF NO: 29365
	(B) firm deliveries to electric generation facilities;
	(C) firm deliveries to industrial and commercial users of the minimum natural gas required to
	prevent physical harm and/or ensure critical safety to the plant facilities, to plant
	personnel, or the public when such protection cannot be achieved through the use of an
	alternate fuel;
	(D) firm deliveries of natural gas to small industrials and regular commercial loads that use
	less than 3,000 Mcf per day;
	(E) firm deliveries to large industrial and commercial users for fuel or as a raw material
	where an alternate fuel or raw material cannot be used and operation and plant production
	would be curtailed or shut down completely when natural gas is curtailed;
	(F) firm deliveries to large industrial and commercial users for fuel or as a raw material
	where an alternate fuel or raw material can be used and operation and plant production would
	be curtailed or shut down completely when natural gas is curtailed; and
	(G) firm deliveries to customers that are not covered by the priorities listed in
	subparagraphs (A) - (F) of this paragraph.
	(2) Deliveries to customers within the same priority on the portion of the system which is
	subject to curtailment shall be curtailed to the extent practicable on a pro rata basis
	according to scheduled quantities. If a customer's end-use requirements fall under two or more
	priorities, then such requirements must be treated separately when applying this schedule of
	priorities to the extent practicable. Transportation customers have equivalent end-use
	priorities as sales customers.
	(3) When applying the priorities of this section, a gas utility may rely on the
	representations of its customers and/or their end users regarding the nature of customers?
	deliveries.
	(d) Curtailment plans. Order 489 and any curtailment plan approved by the Commission prior to
	the effective date of this section is superseded by this section. A gas utility may file its
	own curtailment plan for approval with the Oversight and Safety Division. A gas utility shall
	follow the priorities listed in subsection (c) of this section unless and until the gas
	utility has an approved curtailment plan on file with the Commission. The first three
	priorities in any individual curtailment plan must be consistent with the first three
	priorities listed in subsection $(c)(1)(A) - (C)$ and (2) of this section. A gas utility shall
	provide to its customers notice of an application for a curtailment plan. A gas utility shall
	provide notice on the same day the gas utility files its application with the Commission. The
	gas utility may provide notice by hand delivery, by first class, certified, registered mail,
	commercial delivery service, electronic methods, or by such other manner as the Commission may
	require. The notice shall be in the form prescribed by the Commission. The Oversight and
	Safety Division may administratively approve the curtailment plan if no request for hearing is
	filed within thirty days of such notice. The Commission shall set the matter for hearing if it
	receives a timely request for hearing from a customer of the gas utility.
