The written notice may be provided either by separate mailing or by insert included with the Company's monthly billing statements, including electronic billing statements. The Company shall also electronically file an affidavit annually with the Commission certifying that notice has been provided to customers in this manner. QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

CURRENT RATE COMPONENT**RATE COMP. ID****DESCRIPTION****Applicability**

This Rider will apply to Rate CGS - Mid-Tex, Rider CGS - Other and Rate PT.

Transition Provision

The adjustment under this Rider in effect pursuant to the 2023 Rider REV filing made with the Commission in August 2023 will remain in effect until October 31, 2024. The adjustment filed in August of 2024 under this Rider will use a pro-rated level of Other Revenue to reflect the number of months the Other Revenue amount authorized in GUD No. 10580 is in effect and the number of months the Other Revenue amount authorized in Docket No. OS-23-00013758 is in effect during the period July 1, 2023 through June 30, 2024.

Adjustment Mechanism

Effective each November 1, rate schedules subject to this Rider will be adjusted based on the change in 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year from 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758. Seventy-five percent of the difference between 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year less revenue related taxes and 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758 less revenue related taxes shall be allocated to the Rate CGS class and the Rate PT class in the same proportion as the Other Revenue was allocated to each class in Docket No. OS-23-00013758, as determined from the dollar amounts for Other Revenue Credit On Schedule J to the Final Order in Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class' respective allocated portion of the difference in Other Revenue. The adjusted allocated portion of the difference in Other Revenue for each class shall be divided by the then current MDQ for such class, and that result shall be divided by 12 to calculate a monthly amount. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.

Adjustment Review Process

No later than August 15th of each year, Atmos Pipeline - Texas shall file with the Commission an Other Revenue Adjustment Report showing the following:

1. The actual Other Revenue billed by Atmos Pipeline - Texas during the twelve-month period from July 1 of the prior year through June 30 of the current year by FERC Account;
2. A listing of the customers in the Other Revenue class by coded reference showing monthly volumes and monthly revenues for each customer;
3. The then current contractual MDQ and the MDQ in the prior year's filing for each customer in each class (CGS and PT);
4. The Other Revenue allocation percentages for each class derived from Schedule J;
5. The calculations described in the Adjustment Mechanism Section of this Rider REV and supporting schedules;
6. A confidential cross reference listing of the Customer codes and names (for Railroad Commission Staff only);
7. A statement on whether or not the proposed adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year; and
8. Proposed tariffs showing the proposed adjusted rates. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. The notice shall provide the customers with the proposed adjustment and contact information on where the customer can inspect a copy of the filing. If the requested adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, the notice shall contain a statement that within 20 days of the date of the filing the customer has a right to:

1. request a copy of the complete filing and the address for making such a request;
2. file a reply and the address for filing a reply; and
3. request a hearing and the address for making such a request.

If a hearing is requested, the Hearings Division of the Commission shall conduct the hearing, which shall be limited in scope to the sole issue of the reasonableness of any increase greater than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, on an expedited basis in order to permit the Commission to approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. The Commission shall have the opportunity to review the Other Revenue Adjustment Report and may submit discovery requests until the 40th day following the filing date of the Other Revenue Adjustment Report. Directly affected customers may also submit discovery requests until that date. The Commission shall approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. Atmos Pipeline - Texas shall have the right to appeal the Commission's decision by filing a Motion for Rehearing with the Commission within 20 days following the issuance of the Commission's decision. Atmos Pipeline - Texas shall promptly reimburse the Commission for the cost of reviewing each Other Revenue Adjustment Report upon the invoicing of such cost. Rider SSI - SYSTEM SAFETY AND INTEGRITY

PURPOSE

The purpose of this System Safety and Integrity (SSI) Rider is to promote the public interest in pipeline safety by enabling Atmos Pipeline - Texas (APT or the Company) to recover:

- (1) Maximum allowable operating pressure (MAOP) records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party operating and maintenance (O&M) expenses that are above those included in the Company's then-current base rates (the SSI Expense Benchmark) incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

These expenses shall be recovered through a separate charge (the SSI Surcharge) that shall be shown as a separate line item on the monthly bill of the customer classes described below.

APPLICABILITY

This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

The Company shall also electronically file an affidavit annually with the Commission certifying that notice has been provided to customers in this manner. ----------------------	--------------------

6873	<p>Priority Monthly Rates plus Retention Priority Reservation Fee = Monthly MMBtu/day times \$0.06. Rates: Shipper shall pay Transporter for services rendered hereunder, with regard to gas delivered at the Point(s) of Delivery, at the rate(s) per MMBtu, plus any applicable compression fees, as set forth on the Transaction Confirmation(s). If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. It is understood and agreed by the parties that the rates provided for herein have been reached through arms length negotiations and that neither party had an unfair advantage during the negotiations thereof. Imbalance: Shipper must maintain a monthly balance of the gas transported hereunder. An Imbalance will exist hereunder, during any designated time period during the term hereof, there is a numerical difference between the quantity of gas delivered by Transporter to Shipper at the Delivery Point and the quantity of gas received by Transporter from Shipper (or its designee) at the Receipt Point(s), exclusive of the Retention Volumes and Make-up Volumes. This Rider will apply to Rate CGS - Mid-Tex, Rider CGS - Other and Rate PT.

Transition Provision

The adjustment under this Rider in effect pursuant to the 2023 Rider REV filing made with the Commission in August 2023 will remain in effect until October 31, 2024. The adjustment filed in August of 2024 under this Rider will use a pro-rated level of Other Revenue to reflect the number of months the Other Revenue amount authorized in GUD No. 10580 is in effect and the number of months the Other Revenue amount authorized in Docket No. OS-23-00013758 is in effect during the period July 1, 2023 through June 30, 2024.

Adjustment Mechanism

Effective each November 1, rate schedules subject to this Rider will be adjusted based on the change in 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year from 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758. Seventy-five percent of the difference between 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year less revenue related taxes and 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758 less revenue related taxes shall be allocated to the Rate CGS class and the Rate PT class in the same proportion as the Other Revenue was allocated to each class in Docket No. OS-23-00013758, as determined from the dollar amounts for Other Revenue Credit On Schedule J to the Final Order in Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class' respective allocated portion of the difference in Other Revenue. The adjusted allocated portion of the difference in Other Revenue for each class shall be divided by the then current MDQ for such class, and that result shall be divided by 12 to calculate a monthly amount. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.

Adjustment Review Process

No later than August 15th of each year, Atmos Pipeline - Texas shall file with the Commission an Other Revenue Adjustment Report showing the following:

1. The actual Other Revenue billed by Atmos Pipeline - Texas during the twelve-month period from July 1 of the prior year through June 30 of the current year by FERC Account;
2. A listing of the customers in the Other Revenue class by coded reference showing monthly volumes and monthly revenues for each customer;
3. The then current contractual MDQ and the MDQ in the prior year's filing for each customer in each class (CGS and PT);
4. The Other Revenue allocation percentages for each class derived from Schedule J;
5. The calculations described in the Adjustment Mechanism Section of this Rider REV and supporting schedules;
6. A confidential cross reference listing of the Customer codes and names (for Railroad Commission Staff only);
7. A statement on whether or not the proposed adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year; and
8. Proposed tariffs showing the proposed adjusted rates. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. The notice shall provide the customers with the proposed adjustment and contact information on where the customer can inspect a copy of the filing. If the requested adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, the notice shall contain a statement that within 20 days of the date of the filing the customer has a right to:

1. request a copy of the complete filing and the address for making such a request;
2. file a reply and the address for filing a reply; and
3. request a hearing and the address for making such a request.

If a hearing is requested, the Hearings Division of the Commission shall conduct the hearing, which shall be limited in scope to the sole issue of the reasonableness of any increase greater than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, on an expedited basis in order to permit the Commission to approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. The Commission shall have the opportunity to review the Other Revenue Adjustment Report and may submit discovery requests until the 40th day following the filing date of the Other Revenue Adjustment Report. Directly affected customers may also submit discovery requests until that date. The Commission shall approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. Atmos Pipeline - Texas shall have the right to appeal the Commission's decision by filing a Motion for Rehearing with the Commission within 20 days following the issuance of the Commission's decision. Atmos Pipeline - Texas shall promptly reimburse the Commission for the cost of reviewing each Other Revenue Adjustment Report upon the invoicing of such cost. The Other Revenue Adjustment, as adjusted by the Commission, shall be implemented on November 1 of the current year and shall remain in effect until revised on the following November 1st.

Rider SSI - SYSTEM SAFETY AND INTEGRITY

PURPOSE

The purpose of this System Safety and Integrity (SSI) Rider is to promote the public interest in pipeline safety by enabling Atmos Pipeline - Texas (APT or the Company) to recover:

- (1) Maximum allowable operating pressure (MAOP) records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party operating and maintenance (O&M) expenses that are above those included in the Company's then-current base rates (the SSI Expense Benchmark) incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

These expenses shall be recovered through a separate charge (the SSI Surcharge) that shall be shown as a separate line item on the monthly bill of the customer classes described below.

APPLICABILITY

This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

8. Proposed tariffs showing the proposed adjusted rates. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. The notice shall provide the customers with the proposed adjustment and contact information on where the customer can inspect a copy of the filing. QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

The written notice may be provided either by separate mailing or by insert included with the Company's monthly billing statements, including electronic billing statements. The Company shall also electronically file an affidavit annually with the Commission certifying that notice has been provided to customers in this manner. and 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758 less revenue related taxes shall be allocated to the Rate CGS class and the Rate PT class in the same proportion as the Other Revenue was allocated to each class in Docket No. OS-23-00013758, as determined from the dollar amounts for Other Revenue Credit On Schedule J to the Final Order in Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.

Adjustment Review Process

5. The calculations described in the Adjustment Mechanism Section of this Rider REV and supporting schedules;
6. A confidential cross reference listing of the Customer codes and names (for Railroad Commission Staff only);

Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. CURRENT RATE COMPONENT**RATE COMP. ID****DESCRIPTION**

These expenses shall be recovered through a separate charge (the SSI Surcharge) that shall be shown as a separate line item on the monthly bill of the customer classes described below.

APPLICABILITY

This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

TUC APPLICABILITY**FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY**

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. Priority Monthly Rates plus Retention Rates: Shipper shall pay Transporter for services rendered hereunder, with regard to gas delivered at the Point(s) of Delivery, at the rate(s) per MMBtu, plus any applicable compression fees, as set forth on the Transaction Confirmation(s). If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. It is understood and agreed by the parties that the rates provided for herein have been reached through arms length negotiations and that neither party had an unfair advantage during the negotiations thereof.</p> <p>Imbalance: Shipper must maintain a monthly balance of the gas transported hereunder. An Imbalance will exist hereunder, during any designated time period during the term hereof, there is a numerical difference between the quantity of gas delivered by Transporter to Shipper at the Delivery Point and the quantity of gas received by Transporter from Shipper (or its designee) at the Receipt Point(s), exclusive of the Retention Volumes and Make-up Volumes. At the end of each month, Shipper will pay Transporter \$0.25/MMBtu of Cumulative Imbalance that is greater than 5% of the volume of gas delivered at the Delivery point for such month. Late charge: an additional one and one half percent (1.5%) interest shall accrue on all unpaid amounts if customer fails to make payments within 10 days of the monthly billing date. Taxes: 100% Tax Reimbursement.</p>

RATE PT - PIPELINE TRANSPORTATION

Applicability

This rate schedule is applicable to service by the Company under a Transportation Agreement - Pipeline, to a customer directly connected to the Atmos Pipeline-Texas System for the transportation of all natural gas supplied by Customer or Customer's agent for delivery to Customer at one Point of Delivery.

Not applicable for service to City Gate Service customers.

Type of Service

This service provides interruptible transportation service to end use customers. Where service of the quantity and type desired by Customer is not already available at a Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished at such Point of Delivery.

Monthly Rate

Customer's monthly bill will be calculated by adding the Monthly Customer and Usage charges to the amounts and quantities due under the Riders listed below. The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount
Capacity	\$ 10.33555 per MMBtu of MDQ (Note 1)
Annual Rider REV Adjustment	\$ (0.80371) per MMBtu of MDQ
Interim Rate Adjustment (IRA)	\$ 2.15358 per MMBtu of MDQ (Note 2)
Total Capacity Charge	\$ 11.68542 per MMBtu of MDQ
Usage	\$ 0.01347 per MMBtu

Rider RA: Plus a quantity of gas as calculated in accordance with Rider RA.

Rider TAX: Plus an amount for tax calculated in accordance with Rider TAX.

Rider MF: Plus an amount for municipal fees calculated in accordance with Rider MF.

Rider SUR: Plus an amount for surcharges calculated in accordance with Rider SUR.

Rider REV: Plus an amount per MMBtu in accordance with Rider REV as an adjustment to the Capacity Charge per MMBtu of MDQ.

Rider SSI: Plus a System Safety and Integrity surcharge billed as a separate line item in accordance with Rider SSI.

Imbalance Fees

All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees

Customer shall pay Company the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for the MMBtu of Customer's monthly Cumulative Imbalance, as defined in the applicable Transportation Agreement, at the end of each month that exceeds 10% of Customer's receipt quantities for the month.

Curtailment Overpull Fee

Upon notification by Company of an event of curtailment or interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of curtailment or interruption, pay Company 200% of the midpoint price for the Katy point listed in Platts Gas Daily published for the applicable Gas Day in the table entitled Daily Price Survey.

MDQ Adjustment

If a Customer's daily usage on any day exceeds the Customer's MDQ as set forth in the applicable Transportation Agreement by 10% or more, the Customer's MDQ shall be increased to equal such daily usage. CURRENT RATE COMPONENT**RATE COMP. ID****DESCRIPTION****APPLICABILITY**

This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

The written notice may be provided either by separate mailing or by insert included with the Company's monthly billing statements, including electronic billing statements. The Company shall also electronically file an affidavit annually with the Commission certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the Commission, and each subsequent notice shall follow the same format as that of the approved initial notice.

Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class' respective allocated portion of the difference in Other Revenue. The adjusted allocated portion of the difference in Other Revenue for each class shall be divided by the then current MDQ for such class, and that result shall be divided by 12 to calculate a monthly amount. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.

Adjustment Review Process

No later than August 15th of each year, Atmos Pipeline - Texas shall file with the Commission an Other Revenue Adjustment Report showing the following:

1. The actual Other Revenue billed by Atmos Pipeline - Texas during the twelve-month period from July 1 of the prior year through June 30 of the current year by FERC Account;
2. A listing of the customers in the Other Revenue class by coded reference showing monthly volumes and monthly revenues for each customer;
3. The then current contractual MDQ and the MDQ in the prior year's filing for each customer in each class (CGS and PT);
4. The Other Revenue allocation percentages for each class derived from Schedule J;
5. The calculations described in the Adjustment Mechanism Section of this Rider REV and supporting schedules;
6. A confidential cross reference listing of the Customer codes and names (for Railroad Commission Staff only);
7. A statement on whether or not the proposed adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year; and
8. Proposed tariffs showing the proposed adjusted rates. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. The notice shall provide the customers with the proposed adjustment and contact information on where the customer can inspect a copy of the filing. If the requested adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, the notice shall contain a statement that within 20 days of the date of the filing the customer has a right to:
 1. request a copy of the complete filing and the address for making such a request;
 2. file a reply and the address for filing a reply; and
 3. request a hearing and the address for making such a request.

If a hearing is requested, the Hearings Division of the Commission shall conduct the hearing, which shall be limited in scope to the sole issue of the reasonableness of any increase greater than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, on an expedited basis in order to permit the Commission to approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. The Commission shall have the opportunity to review the Other Revenue Adjustment Report and may submit discovery requests until the 40th day following the filing date of the Other Revenue Adjustment Report. Directly affected customers may also submit discovery requests until that date. The Commission shall approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. Atmos Pipeline - Texas shall promptly reimburse the Commission for the cost of reviewing each Other Revenue Adjustment Report upon the invoicing of such cost. This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

TUC APPLICABILITY**FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY**

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

7349	<p>Priority ST Rates plus Retention Rates: Shipper shall pay Transporter for services rendered hereunder, with regard to gas delivered at the Point(s) of Delivery, at the rate(s) per MMBtu, plus any applicable compression fees, as set forth on the Transaction Confirmation(s). If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. It is understood and agreed by the parties that the rates provided for herein have been reached through arms length negotiations and that neither party had an unfair advantage during the negotiations thereof. Imbalance: Shipper must maintain a monthly balance of the gas transported hereunder. CURRENT RATE COMPONENT**RATE COMP. ID****DESCRIPTION**

Effective Date: 06/127/2025

RATE PT - PIPELINE TRANSPORTATION

Applicability

This rate schedule is applicable to service by the Company under a Transportation Agreement - Pipeline, to a customer directly connected to the Atmos Pipeline-Texas System for the transportation of all natural gas supplied by Customer or Customer's agent for delivery to Customer at one Point of Delivery.

The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount
Capacity	\$ 10.33555 per MMBtu of MDQ (Note 1)
Annual Rider REV Adjustment	\$ (0.80371) per MMBtu of MDQ
Interim Rate Adjustment (IRA)	\$ 2.15358 per MMBtu of MDQ (Note 2)
Total Capacity Charge	\$ 11.68542 per MMBtu of MDQ
Usage	\$ 0.01347 per MMBtu

Rider RA: Plus a quantity of gas as calculated in accordance with Rider RA.

Rider TAX: Plus an amount for tax calculated in accordance with Rider TAX.

Rider MF: Plus an amount for municipal fees calculated in accordance with Rider MF.

Rider SUR: Plus an amount for surcharges calculated in accordance with Rider SUR.

Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class' respective allocated portion of the difference in Other Revenue. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

Where service of the quantity and type required by Customer is not already available at a Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished at such Point of Delivery.

Monthly Rate

Customer's monthly bill will be calculated by adding the Monthly Customer and Usage charges to the amounts and quantities due under the Riders listed below. The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount

Annual Rider REV Adjustment	\$ (1.00616) per MMBtu of MDQ

Rider REV: Plus an amount per MMBtu in accordance with Rider REV as an adjustment to the Capacity Charge per MMBtu of MDQ.

Rider SSI: Plus a System Safety and Integrity surcharge billed as a separate line item in accordance with Rider SSI.

MDQ Adjustment: If Shipper's daily usage on any day exceeds Shipper's MDQ as set forth herein by 10% or more, then Shipper's MDQ will be increased to equal such daily usage up to the firm capacity available through the then existing APT facilities. The effective date of such increase in the MDQ will be the first day of the calendar month following the day on which Shipper's daily usage exceeded Shipper's MDQ by 10% or more.

Imbalance Fees

All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees

Customer shall pay Company the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for the MMBtu of Customer's monthly Cumulative Imbalance, as defined in the applicable Transportation Agreement, at the end of each month that exceeds 10% of Customer's receipt quantities for the month.

Curtailment Overpull Fee

Upon notification by Company of an event of curtailment or interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of curtailment or interruption, pay Company 200% of the midpoint price for the Katy point listed in Platts Gas Daily published for the applicable Gas Day in the table entitled Daily Price Survey.

Replacement Index

Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its review of the reconciliation on or before October 15th of each year, so that the Company can implement the reconciled SSI Surcharge effective November 1st of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all SSI Expenses above the SSI Expense Benchmark that are incurred after December 31, 2022, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT

On or before June 15th after each twelve-month period ending March 31st, the Company shall file a report with the Commission showing all SSI Expenses incurred during the previous reporting period and verifying the prior year's collections and any under recoveries or over recoveries accruing to date under this Rider. NOTICE TO AFFECTED CUSTOMERS

If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

Pooling Rate: \$0.0050 Pooling and Transfer fee for volumes delivered. Late charge: an additional one and one half percent (1.5%) interest shall accrue on all unpaid amounts if customer fails to make payments within 10 days of the monthly billing date. Taxes: 100% Tax Reimbursement. Imbalances: (a) Monthly Imbalance - Pooler must maintain a monthly balance of the gas transported hereunder. A Monthly Imbalance will exist hereunder when, during any month of the term hereof, there is a numerical difference between the quantity of gas delivered by ATMOS to Pooler at the Pool Delivery Point and the quantity of gas received by ATMOS from Pooler (or its designee) at the Receipt Point(s), exclusive of the Retention Volumes. Any such Monthly Imbalance must be corrected as soon as possible, but no later than the end of the month immediately following the month in which it occurs. (b) Imbalance Fees - At the end of each month, Pooler will pay ATMOS \$0.25 for each MMBtu of Cumulative Imbalance that is greater than 5% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month and Pooler will pay ATMOS the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for each MMBtu of Cumulative Imbalance that is greater than 10% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month; provided however, and any Cumulative Imbalance of 2,000 MMBtu or less will not be charged an Imbalance Fee at the end of such month (Minimum Imbalance Level). (c) Seasonal Imbalance Fees Adjustments - Notwithstanding the provisions of Paragraph (b), at the end of each month during the Winter Season (November # March), Pooler will pay ATMOS \$0.50 for each MMBtu of Cumulative Imbalance due Pooler (positive imbalance) by ATMOS that is greater than 10% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month; provided however, and any Cumulative Imbalance of 2,000 MMBtu or less will not be charged an Imbalance Fee at the end of such month. Any Imbalance Fee related to a Cumulative Imbalance due ATMOS (negative imbalance) by Pooler at the end of each month during the Winter Season will continue to be calculated as described in Paragraph 3(d). During the Non-Winter Season (April # October), any Cumulative Imbalance at the end of each month will be calculated as described in Paragraph (b). (d) Critical Weather Event Imbalance Fee - Pooler will pay the Critical Weather Event Imbalance Fee for each day its quantities are deficient during the Critical Weather Event following the effective time set forth in a Critical Weather Event Order. Deficient quantities during a Critical Weather Event will be determined by subtracting: 1) the total quantity of gas delivered from Pooler's pool station for such day from 2) the confirmed nominated quantity of gas at Pooler's Receipt Points for such day. The fee will be equal to 200% of the highest daily price published during the Critical Weather Event for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey. In the event the daily price for the Katy point listed in the table entitled Daily Price Survey is no longer published, ATMOS will base the Critical Weather Event Imbalance Fee on a daily price index recognized as authoritative by the natural gas industry for the Katy point. Critical Weather Imbalance Fee will be assessed for each MMBtu that exceeds the daily tolerances as set forth below: (i) If a Pooler's total daily combined customers' usage is less than 20,001 MMBtu/day, a deficiency tolerance of 10 % will be permitted. (ii) If a Pooler's total daily combined customers' usage is greater than 20,001 MMBtu/day, a deficiency tolerance of 5% will be permitted. This imbalance fee will be charged in addition to any monthly imbalance fees applicable during the month.

RATE PT - PIPELINE TRANSPORTATION

Applicability

This rate schedule is applicable to service by the Company under a Transportation Agreement - Pipeline, to a customer directly connected to the Atmos Pipeline-Texas System for the transportation of all natural gas supplied by Customer or Customer's agent for delivery to Customer at one Point of Delivery.

Not applicable for service to City Gate Service customers.

Type of Service

This service provides interruptible transportation service to end use customers. Where service of the quantity and type desired by Customer is not already available at a Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished at such Point of Delivery.

Monthly Rate

Customer's monthly bill will be calculated by adding the Monthly Customer and Usage charges to the amounts and quantities due under the Riders listed below. The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount
Capacity	\$ 4.17060 per MMBtu of MDQ (Note 1)
Annual Rider REV Adjustment	\$ (0.57467) per MMBtu of MDQ
Interim Rate Adjustment (IRA)	\$ 4.65051 per MMBtu of MDQ (Note 2)
Total Capacity Charge	\$ 8.24644 per MMBtu of MDQ
Usage	\$ 0.01325 per MMBtu

Rider RA: Plus a quantity of gas as calculated in accordance with Rider RA.

Rider TAX: Plus an amount for tax calculated in accordance with Rider TAX.

Rider MF: Plus an amount for municipal fees calculated in accordance with Rider MF.

Rider SUR: Plus an amount for surcharges calculated in accordance with Rider SUR.

Rider REV: Plus an amount per MMBtu in accordance with Rider REV as an adjustment to the Capacity Charge per MMBtu of MDQ.

Imbalance Fees

All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees

Customer shall pay Company the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for the MMBtu of Customer's monthly Cumulative Imbalance, as defined in the applicable Transportation Agreement, at the end of each month that exceeds 10% of Customer's receipt quantities for the month.

Curtailment Overpull Fee

Upon notification by Company of an event of curtailment or interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of curtailment or interruption, pay Company 200% of the midpoint price for the Katy point listed in Platts Gas Daily published for the applicable Gas Day in the table entitled Daily Price Survey.

Replacement Index

In the event the midpoint or common price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey is no longer published, Company will calculate the applicable imbalance fees utilizing a daily price index recognized as authoritative by the natural gas industry and most closely approximating the applicable index.

MDQ Adjustment

If a Customer's daily usage on any day exceeds the Customer's MDQ as set forth in the applicable Transportation Agreement by 10% or more, the Customer's MDQ shall be increased to equal such daily usage. The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. CURRENT RATE COMPONENT**RATE COMP. ID****DESCRIPTION****Applicability**

This Rider will apply to Rate CGS - Mid-Tex, Rider CGS - Other and Rate PT.

Transition Provision

The adjustment under this Rider in effect pursuant to the 2023 Rider REV filing made with the Commission in August 2023 will remain in effect until October 31, 2024. The adjustment filed in August of 2024 under this Rider will use a pro-rated level of Other Revenue to reflect the number of months the Other Revenue amount authorized in GUD No. 10580 is in effect and the number of months the Other Revenue amount authorized in Docket No. OS-23-00013758 is in effect during the period July 1, 2023 through June 30, 2024.

Adjustment Mechanism

Effective each November 1, rate schedules subject to this Rider will be adjusted based on the change in 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year from 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758. Seventy-five percent of the difference between 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year less revenue related taxes and 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758 less revenue related taxes shall be allocated to the Rate CGS class and the Rate PT class in the same proportion as the Other Revenue was allocated to each class in Docket No. OS-23-00013758, as determined from the dollar amounts for Other Revenue Credit On Schedule J to the Final Order in Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class' respective allocated portion of the difference in Other Revenue. The adjusted allocated portion of the difference in Other Revenue for each class shall be divided by the then current MDQ for such class, and that result shall be divided by 12 to calculate a monthly amount. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.

Adjustment Review Process

No later than August 15th of each year, Atmos Pipeline - Texas shall file with the Commission an Other Revenue Adjustment Report showing the following:

1. The actual Other Revenue billed by Atmos Pipeline - Texas during the twelve-month period from July 1 of the prior year through June 30 of the current year by FERC Account;
2. A listing of the customers in the Other Revenue class by coded reference showing monthly volumes and monthly revenues for each customer;
3. The then current contractual MDQ and the MDQ in the prior year's filing for each customer in each class (CGS and PT);
4. The Other Revenue allocation percentages for each class derived from Schedule J;
5. The calculations described in the Adjustment Mechanism Section of this Rider REV and supporting schedules;
6. A confidential cross reference listing of the Customer codes and names (for Railroad Commission Staff only);
7. A statement on whether or not the proposed adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year; and
8. Proposed tariffs showing the proposed adjusted rates. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. The notice shall provide the customers with the proposed adjustment and contact information on where the customer can inspect a copy of the filing. If the requested adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, the notice shall contain a statement that within 20 days of the date of the filing the customer has a right to:

1. request a copy of the complete filing and the address for making such a request;
2. file a reply and the address for filing a reply; and
3. request a hearing and the address for making such a request.

If a hearing is requested, the Hearings Division of the Commission shall conduct the hearing, which shall be limited in scope to the sole issue of the reasonableness of any increase greater than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, on an expedited basis in order to permit the Commission to approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. The Commission shall have the opportunity to review the Other Revenue Adjustment Report and may submit discovery requests until the 40th day following the filing date of the Other Revenue Adjustment Report. Directly affected customers may also submit discovery requests until that date. The Commission shall approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. Atmos Pipeline - Texas shall have the right to appeal the Commission's decision by filing a Motion for Rehearing with the Commission within 20 days following the issuance of the Commission's decision. Atmos Pipeline - Texas shall promptly reimburse the Commission for the cost of reviewing each Other Revenue Adjustment Report upon the invoicing of such cost. The Other Revenue Adjustment, as adjusted by the Commission, shall be implemented on November 1 of the current year and shall remain in effect until revised on the following November 1st.

Rider SSI - SYSTEM SAFETY AND INTEGRITY

PURPOSE

The purpose of this System Safety and Integrity (SSI) Rider is to promote the public interest in pipeline safety by enabling Atmos Pipeline - Texas (APT or the Company) to recover:

- (1) Maximum allowable operating pressure (MAOP) records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party operating and maintenance (O&M) expenses that are above those included in the Company's then-current base rates (the SSI Expense Benchmark) incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

These expenses shall be recovered through a separate charge (the SSI Surcharge) that shall be shown as a separate line item on the monthly bill of the customer classes described below.

APPLICABILITY

This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =

Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark

= Over/Under (SSI Amount) Collection/Refund Amount

Step 2: SSI Amount divided by Total period ended March MDQs*

= Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its review of the reconciliation on or before October 15th of each year, so that the Company can implement the reconciled SSI Surcharge effective November 1st of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all SSI Expenses above the SSI Expense Benchmark that are incurred after December 31, 2022, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT

On or before June 15th after each twelve-month period ending March 31st, the Company shall file a report with the Commission showing all SSI Expenses incurred during the previous reporting period and verifying the prior year's collections and any under recoveries or over recoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before June 15th of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission (a) identifying the SSI Surcharges that will be applied during the ensuing 12-month recovery period from November 1st through October 31st, and (b) providing the underlying data and calculations on which each SSI Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, within 45 days of filing the SSI reconciliation and annual report, written notice to each affected customer of (a) the SSI Surcharge that will be applied during the ensuing 12-month period from November 1st through October 31st, and (b) the effect the SSI Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice may be provided either by separate mailing or by insert included with the Company's monthly billing statements, including electronic billing statements. The Company shall also electronically file an affidavit annually with the Commission certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the Commission, and each subsequent notice shall follow the same format as that of the approved initial notice.

----------------------	--------------------

7627	Priority ST Rates plus Retention Rates: Shipper shall pay Transporter for services rendered hereunder, with regard to gas delivered at the Point(s) of Delivery, at the rate(s) per MMBtu, plus any applicable compression fees, as set forth on the Transaction Confirmation(s). If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. It is understood and agreed by the parties that the rates provided for herein have been reached through arms length negotiations and that neither party had an unfair advantage during the negotiations thereof. Imbalance: Shipper must maintain a monthly balance of the gas transported hereunder. An Imbalance will exist hereunder, during any designated time period during the term hereof, there is a numerical difference between the quantity of gas delivered by Transporter to Shipper at the Delivery Point and the quantity of gas received by Transporter from Shipper (or its designee) at the Receipt Point(s), exclusive of the Retention Volumes and Make-up Volumes. At the end of each month, Shipper will pay Transporter \$0.25/MMBtu of Cumulative Imbalance that is greater than 5% of the volume of gas delivered at the Delivery point for such month. Late charge: an additional one and one half percent (1.5%) interest shall accrue on all unpaid amounts if customer fails to make payments within 10 days of the monthly billing date. QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class' respective allocated portion of the difference in Other Revenue. The adjusted allocated portion of the difference in Other Revenue for each class shall be divided by the then current MDQ for such class, and that result shall be divided by 12 to calculate a monthly amount. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.

Adjustment Review Process

No later than August 15th of each year, Atmos Pipeline - Texas shall file with the Commission an Other Revenue Adjustment Report showing the following:

1. The actual Other Revenue billed by Atmos Pipeline - Texas during the twelve-month period from July 1 of the prior year through June 30 of the current year by FERC Account;
2. A listing of the customers in the Other Revenue class by coded reference showing monthly volumes and monthly revenues for each customer;
3. The then current contractual MDQ and the MDQ in the prior year's filing for each customer in each class (CGS and PT);
4. The Other Revenue allocation percentages for each class derived from Schedule J;
5. The calculations described in the Adjustment Mechanism Section of this Rider REV and supporting schedules;
6. A confidential cross reference listing of the Customer codes and names (for Railroad Commission Staff only);
7. A statement on whether or not the proposed adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year; and
8. Proposed tariffs showing the proposed adjusted rates. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. The notice shall provide the customers with the proposed adjustment and contact information on where the customer can inspect a copy of the filing. If the requested adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, the notice shall contain a statement that within 20 days of the date of the filing the customer has a right to:

1. request a copy of the complete filing and the address for making such a request;
2. file a reply and the address for filing a reply; and
3. request a hearing and the address for making such a request.

If a hearing is requested, the Hearings Division of the Commission shall conduct the hearing, which shall be limited in scope to the sole issue of the reasonableness of any increase greater than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, on an expedited basis in order to permit the Commission to approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. The Commission shall have the opportunity to review the Other Revenue Adjustment Report and may submit discovery requests until the 40th day following the filing date of the Other Revenue Adjustment Report. Directly affected customers may also submit discovery requests until that date. The Commission shall approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. Atmos Pipeline - Texas shall promptly reimburse the Commission for the cost of reviewing each Other Revenue Adjustment Report upon the invoicing of such cost. This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. Application

Applicable, in the event that Company has entered into a Transportation Agreement for City Gate Service to a Local Distribution Company (Customer), other than Mid-Tex, connected to the Atmos Pipeline - Texas System for the transportation of all natural gas supplied by Customer to a Point or Points of Delivery.

Type of Service

This service provides firm transportation and storage service to Local Distribution Companies. Where service of the quantity and type required by Customer is not already available at a Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished at such Point of Delivery.

Monthly Rate

Customer's monthly bill will be calculated by adding the Monthly Customer and Usage charges to the amounts and quantities due under the Riders listed below. The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount
Capacity	\$ 18.80038 per MMBtu of MDQ (Note 1)
Annual Rider REV Adjustment	\$ (1.00616) per MMBtu of MDQ
Interim Rate Adjustment (IRA)	\$ 4.06323 per MMBtu of MDQ (Note 2)
Total Capacity Charge	\$ 21.85745 per MMBtu of MDQ
Usage	\$ 0.02831 per MMBtu

Rider RA: Plus a quantity of gas as calculated in accordance with Rider RA.

Rider TAX: Plus an amount for tax calculated in accordance with Rider TAX.

Rider SUR: Plus an amount for surcharges calculated in accordance with Rider SUR.

Rider REV: Plus an amount per MMBtu in accordance with Rider REV as an adjustment to the Capacity Charge per MMBtu of MDQ.

Rider SSI: Plus a System Safety and Integrity surcharge billed as a separate line item in accordance with Rider SSI.

MDQ Adjustment: If Shipper's daily usage on any day exceeds Shipper's MDQ as set forth herein by 10% or more, then Shipper's MDQ will be increased to equal such daily usage up to the firm capacity available through the then existing APT facilities. The effective date of such increase in the MDQ will be the first day of the calendar month following the day on which Shipper's daily usage exceeded Shipper's MDQ by 10% or more.

All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees

Curtailment Overpull Fee

	Adjustment Mechanism Effective each November 1, rate schedules subject to this Rider will be adjusted based on the change in 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year from 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758. Seventy-five percent of the difference between 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year less revenue related taxes and 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758 less revenue related taxes shall be allocated to the Rate CGS class and the Rate PT class in the same proportion as the Other Revenue was allocated to each class in Docket No. OS-23-00013758, as determined from the dollar amounts for Other Revenue Credit On Schedule J to the Final Order in Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class` respective allocated portion of the difference in Other Revenue. The adjusted allocated portion of the difference in Other Revenue for each class shall be divided by the then current MDQ for such class, and that result shall be divided by 12 to calculate a monthly amount. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.		
	Adjustment Review Process No later than August 15th of each year, Atmos Pipeline - Texas shall file with the Commission an Other Revenue Adjustment Report showing the following:

capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its review of the reconciliation on or before October 15th of each year, so that the Company can implement the reconciled SSI Surcharge effective November 1st of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all SSI Expenses above the SSI Expense Benchmark that are incurred after December 31, 2022, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT

On or before June 15th after each twelve-month period ending March 31st, the Company shall file a report with the Commission showing all SSI Expenses incurred during the previous reporting period and verifying the prior year's collections and any under recoveries or over recoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before June 15th of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission (a) identifying the SSI Surcharges that will be applied during the ensuing 12-month recovery period from November 1st through October 31st, and (b) providing the underlying data and calculations on which each SSI Surcharge for that period is based.

CURRENT RATE COMPONENT**RATE COMP. ID****DESCRIPTION****Applicability**

This Rider will apply to Rate CGS - Mid-Tex, Rider CGS - Other and Rate PT.

Transition Provision

The adjustment under this Rider in effect pursuant to the 2023 Rider REV filing made with the Commission in August 2023 will remain in effect until October 31, 2024. The adjustment filed in August of 2024 under this Rider will use a pro-rated level of Other Revenue to reflect the number of months the Other Revenue amount authorized in GUD No. 10580 is in effect and the number of months the Other Revenue amount authorized in Docket No. OS-23-00013758 is in effect during the period July 1, 2023 through June 30, 2024.

Adjustment Mechanism

Effective each November 1, rate schedules subject to this Rider will be adjusted based on the change in 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year from 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758. Seventy-five percent of the difference between 1) the level of Other Revenue for the twelve-month period from July 1 of the prior year through June 30 of the current year less revenue related taxes and 2) the level of Other Revenue credited to the total cost of service in Docket No. OS-23-00013758 less revenue related taxes shall be allocated to the Rate CGS class and the Rate PT class in the same proportion as the Other Revenue was allocated to each class in Docket No. OS-23-00013758, as determined from the dollar amounts for Other Revenue Credit On Schedule J to the Final Order in Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class' respective allocated portion of the difference in Other Revenue. The adjusted allocated portion of the difference in Other Revenue for each class shall be divided by the then current MDQ for such class, and that result shall be divided by 12 to calculate a monthly amount. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.

Adjustment Review Process

No later than August 15th of each year, Atmos Pipeline - Texas shall file with the Commission an Other Revenue Adjustment Report showing the following:

1. The actual Other Revenue billed by Atmos Pipeline - Texas during the twelve-month period from July 1 of the prior year through June 30 of the current year by FERC Account;
2. A listing of the customers in the Other Revenue class by coded reference showing monthly volumes and monthly revenues for each customer;
3. The then current contractual MDQ and the MDQ in the prior year's filing for each customer in each class (CGS and PT);
4. The Other Revenue allocation percentages for each class derived from Schedule J;
5. The calculations described in the Adjustment Mechanism Section of this Rider REV and supporting schedules;
6. A confidential cross reference listing of the Customer codes and names (for Railroad Commission Staff only);
7. A statement on whether or not the proposed adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year; and
8. Proposed tariffs showing the proposed adjusted rates. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. The notice shall provide the customers with the proposed adjustment and contact information on where the customer can inspect a copy of the filing. If the requested adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, the notice shall contain a statement that within 20 days of the date of the filing the customer has a right to:

1. request a copy of the complete filing and the address for making such a request;
2. file a reply and the address for filing a reply; and
3. request a hearing and the address for making such a request.

If a hearing is requested, the Hearings Division of the Commission shall conduct the hearing, which shall be limited in scope to the sole issue of the reasonableness of any increase greater than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, on an expedited basis in order to permit the Commission to approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. The Commission shall have the opportunity to review the Other Revenue Adjustment Report and may submit discovery requests until the 40th day following the filing date of the Other Revenue Adjustment Report. Directly affected customers may also submit discovery requests until that date. The Commission shall approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. Atmos Pipeline - Texas shall have the right to appeal the Commission's decision by filing a Motion for Rehearing with the Commission within 20 days following the issuance of the Commission's decision. Atmos Pipeline - Texas shall promptly reimburse the Commission for the cost of reviewing each Other Revenue Adjustment Report upon the invoicing of such cost. The Other Revenue Adjustment, as adjusted by the Commission, shall be implemented on November 1 of the current year and shall remain in effect until revised on the following November 1st.

Rider SSI - SYSTEM SAFETY AND INTEGRITY

PURPOSE

The purpose of this System Safety and Integrity (SSI) Rider is to promote the public interest in pipeline safety by enabling Atmos Pipeline - Texas (APT or the Company) to recover:

- (1) Maximum allowable operating pressure (MAOP) records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party operating and maintenance (O&M) expenses that are above those included in the Company's then-current base rates (the SSI Expense Benchmark) incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

These expenses shall be recovered through a separate charge (the SSI Surcharge) that shall be shown as a separate line item on the monthly bill of the customer classes described below.

APPLICABILITY

This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =

Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark

= Over/Under (SSI Amount) Collection/Refund Amount

Step 2: SSI Amount divided by Total period ended March MDQs*

= Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

The written notice may be provided either by separate mailing or by insert included with the Company's monthly billing statements, including electronic billing statements. The Company shall also electronically file an affidavit annually with the Commission certifying that notice has been provided to customers in this manner. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its review of the reconciliation on or before October 15th of each year, so that the Company can implement the reconciled SSI Surcharge effective November 1st of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all SSI Expenses above the SSI Expense Benchmark that are incurred after December 31, 2022, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT

On or before June 15th after each twelve-month period ending March 31st, the Company shall file a report with the Commission showing all SSI Expenses incurred during the previous reporting period and verifying the prior year's collections and any under recoveries or over recoveries accruing to date under this Rider. 7686	<p>Rates: Shipper shall pay Transporter for services rendered hereunder, with regard to gas delivered at the Point(s) of Delivery, at the rate(s) per MMBtu, plus any applicable compression fees, as set forth on the Transaction Confirmation(s). If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. It is understood and agreed by the parties that the rates provided for herein have been reached through arms length negotiations and that neither party had an unfair advantage during the negotiations thereof. Imbalance: Shipper must maintain a monthly balance of the gas transported hereunder. Where service of the quantity and type desired by Customer is not already available at a Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished at such Point of Delivery.

Monthly Rate

Customer's monthly bill will be calculated by adding the Monthly Customer and Usage charges to the amounts and quantities due under the Riders listed below. The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount
Capacity	\$ 10.33555 per MMBtu of MDQ (Note 1)
Annual Rider REV Adjustment	\$ (0.80371) per MMBtu of MDQ
Interim Rate Adjustment (IRA)	\$ 2.15358 per MMBtu of MDQ (Note 2)
Total Capacity Charge	\$ 11.68542 per MMBtu of MDQ
Usage	\$ 0.01347 per MMBtu

Rider RA: Plus a quantity of gas as calculated in accordance with Rider RA.

Rider TAX: Plus an amount for tax calculated in accordance with Rider TAX.

Rider MF: Plus an amount for municipal fees calculated in accordance with Rider MF.

Rider SUR: Plus an amount for surcharges calculated in accordance with Rider SUR.

Rider REV: Plus an amount per MMBtu in accordance with Rider REV as an adjustment to the Capacity Charge per MMBtu of MDQ.

Rider SSI: Plus a System Safety and Integrity surcharge billed as a separate line item in accordance with Rider SSI.

Imbalance Fees

All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees

Customer shall pay Company the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for the MMBtu of Customer's monthly Cumulative Imbalance, as defined in the applicable Transportation Agreement, at the end of each month that exceeds 10% of Customer's receipt quantities for the month.

Curtailment Overpull Fee

Upon notification by Company of an event of curtailment or interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of curtailment or interruption, pay Company 200% of the midpoint price for the Katy point listed in Platts Gas Daily published for the applicable Gas Day in the table entitled Daily Price Survey.

Replacement Index

In the event the midpoint or common price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey is no longer published, Company will calculate the applicable imbalance fees utilizing a daily price index recognized as authoritative by the natural gas industry and most closely approximating the applicable index.

MDQ Adjustment

If a Customer's daily usage on any day exceeds the Customer's MDQ as set forth in the applicable Transportation Agreement by 10% or more, the Customer's MDQ shall be increased to equal such daily usage. The effective date of such increase in the MDQ shall be the first day of the calendar month that begins following the day on which the Customer's daily usage exceeded the Customer's MDQ.

This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

Late Charge, Pooling & Transfer, Taxes Pooling Rate: \$0.0050 Pooling and Transfer fee for volumes delivered. Late charge: an additional one and one half percent (1.5%) interest shall accrue on all unpaid amounts if customer fails to make payments within 10 days of the monthly billing date. Taxes: 100% Tax Reimbursement. Imbalances: (a) Monthly Imbalance - Pooler must maintain a monthly balance of the gas transported hereunder. A Monthly Imbalance will exist hereunder when, during any month of the term hereof, there is a numerical difference between the quantity of gas delivered by ATMOS to Pooler at the Pool Delivery Point and the quantity of gas received by ATMOS from Pooler (or its designee) at the Receipt Point(s), exclusive of the Retention Volumes. Any such Monthly Imbalance must be corrected as soon as possible, but no later than the end of the month immediately following the month in which it occurs. (b) Imbalance Fees - At the end of each month, Pooler will pay ATMOS \$0.25 for each MMBtu of Cumulative Imbalance that is greater than 5% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month and Pooler will pay ATMOS the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for each MMBtu of Cumulative Imbalance that is greater than 10% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month; provided however, and any Cumulative Imbalance of 2,000 MMBtu or less will not be charged an Imbalance Fee at the end of such month (Minimum Imbalance Level). (c) Seasonal Imbalance Fees Adjustments - Notwithstanding the provisions of Paragraph (b), at the end of each month during the Winter Season (November # March), Pooler will pay ATMOS \$0.50 for each MMBtu of Cumulative Imbalance due Pooler (positive imbalance) by ATMOS that is greater than 10% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month; provided however, and any Cumulative Imbalance of 2,000 MMBtu or less will not be charged an Imbalance Fee at the end of such month. Any Imbalance Fee related to a Cumulative Imbalance due ATMOS (negative imbalance) by Pooler at the end of each month during the Winter Season will continue to be calculated as described in Paragraph 3(d). During the Non-Winter Season (April # October), any Cumulative Imbalance at the end of each month will be calculated as described in Paragraph (b). (d) Critical Weather Event Imbalance Fee - Pooler will pay the Critical Weather Event Imbalance Fee for each day its quantities are deficient during the Critical Weather Event following the effective time set forth in a Critical Weather Event Order. Deficient quantities during a Critical Weather Event will be determined by subtracting: 1) the total quantity of gas delivered from Pooler's pool station for such day from 2) the confirmed nominated quantity of gas at Pooler's Receipt Points for such day. The fee will be equal to 200% of the highest daily price published during the Critical Weather Event for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey. In the event the daily price for the Katy point listed in the table entitled Daily Price Survey is no longer published, ATMOS will base the Critical Weather Event Imbalance Fee on a daily price index recognized as authoritative by the natural gas industry for the Katy point. Critical Weather Imbalance Fee will be assessed for each MMBtu that exceeds the daily tolerances as set forth below: (i) If a Pooler's total daily combined customers' usage is less than 20,001 MMBtu/day, a deficiency tolerance of 10 % will be permitted (ii) If a Pooler's total daily combined customers' usage is greater than 20,001 MMBtu/day, a deficiency tolerance of 5% will be permitted. This imbalance fee will be charged in addition to any monthly imbalance fees applicable during the month. Minimum Imbalance Level - Any cumulative imbalance of 2,000/MMBtu for less will not be charge

<u>FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY</u>

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

Application

Applicable, in the event that Company has entered into a Transportation Agreement for City Gate Service to a Local Distribution Company (Customer), other than Mid-Tex, connected to the Atmos Pipeline - Texas System for the transportation of all natural gas supplied by Customer to a Point or Points of Delivery.

Type of Service

This service provides firm transportation and storage service to Local Distribution Companies. Where service of the quantity and type required by Customer is not already available at a Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished at such Point of Delivery.

Monthly Rate

Customer's monthly bill will be calculated by adding the Monthly Customer and Usage charges to the amounts and quantities due under the Riders listed below. The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount
Capacity	\$ 18.80038 per MMBtu of MDQ (Note 1)
Annual Rider REV Adjustment	\$ (1.00616) per MMBtu of MDQ
Interim Rate Adjustment (IRA)	\$ 4.06323 per MMBtu of MDQ (Note 2)
Total Capacity Charge	\$ 21.85745 per MMBtu of MDQ
Usage	\$ 0.02831 per MMBtu

Rider RA: Plus a quantity of gas as calculated in accordance with Rider RA.

Rider TAX: Plus an amount for tax calculated in accordance with Rider TAX.

Rider SUR: Plus an amount for surcharges calculated in accordance with Rider SUR.

Rider REV: Plus an amount per MMBtu in accordance with Rider REV as an adjustment to the Capacity Charge per MMBtu of MDQ.

Rider SSI: Plus a System Safety and Integrity surcharge billed as a separate line item in accordance with Rider SSI.

MDQ Adjustment: If Shipper's daily usage on any day exceeds Shipper's MDQ as set forth herein by 10% or more, then Shipper's MDQ will be increased to equal such daily usage up to the firm capacity available through the then existing APT facilities. The effective date of such increase in the MDQ will be the first day of the calendar month following the day on which Shipper's daily usage exceeded Shipper's MDQ by 10% or more.

Imbalance Fees

All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees

Customer shall pay Company the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for the MMBtu of Customer's monthly Cumulative Imbalance, as defined in the applicable Transportation Agreement, at the end of each month that exceeds 10% of Customer's receipt quantities for the month.

Curtailment Overpull Fee

Upon notification by Company of an event of curtailment or interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of curtailment or interruption, pay Company 200% of the midpoint price for the Katy point listed in Platts Gas Daily published for the applicable Gas Day in the table entitled Daily Price Survey.

capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its review of the reconciliation on or before October 15th of each year, so that the Company can implement the reconciled SSI Surcharge effective November 1st of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all SSI Expenses above the SSI Expense Benchmark that are incurred after December 31, 2022, and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT

On or before June 15th after each twelve-month period ending March 31st, the Company shall file a report with the Commission showing all SSI Expenses incurred during the previous reporting period and verifying the prior year's collections and any under recoveries or over recoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before June 15th of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission (a) identifying the SSI Surcharges that will be applied during the ensuing 12-month recovery period from November 1st through October 31st, and (b) providing the underlying data and calculations on which each SSI Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

Effective Date: 06/127/2025

RATE PT - PIPELINE TRANSPORTATION

Applicability

This rate schedule is applicable to service by the Company under a Transportation Agreement - Pipeline, to a customer directly connected to the Atmos Pipeline-Texas System for the transportation of all natural gas supplied by Customer or Customer's agent for delivery to Customer at one Point of Delivery.

The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount
Capacity	\$ 10.33555 per MMBtu of MDQ (Note 1)
Annual Rider REV Adjustment	\$ (0.80371) per MMBtu of MDQ
Interim Rate Adjustment (IRA)	\$ 2.15358 per MMBtu of MDQ (Note 2)
Total Capacity Charge	\$ 11.68542 per MMBtu of MDQ
Usage	\$ 0.01347 per MMBtu

Rider RA: Plus a quantity of gas as calculated in accordance with Rider RA.

Rider TAX: Plus an amount for tax calculated in accordance with Rider TAX.

Rider MF: Plus an amount for municipal fees calculated in accordance with Rider MF.

Rider SUR: Plus an amount for surcharges calculated in accordance with Rider SUR.

RATE COMP. ID	DESCRIPTION		
7784	Priority ST Rates plus Retention Rates: Shipper shall pay Transporter for services rendered hereunder, with regard to gas delivered at the Point(s) of Delivery, at the rate(s) per MMBtu, plus any applicable compression fees, as set forth on the Transaction Confirmation(s). If Shipper should transport less than the Priority Daily Quantity, (PDQ) as set forth in the Transaction Confirmation(s), then Transporter will bill Shipper for the deficient quantities an amount equal to (i) the product obtained by multiplying the deficient volume by the rate as stated the Transaction Confirmation(s) plus (ii) applicable taxes, if any. In the event any deficiency in Shipper's Priority Daily Quantity obligation accrues solely as the result of an interruption of Priority volumes by Transporter under this Agreement, the amount by which the volumes Shipper tenders for transportation under this Agreement are so interrupted, will, for the purpose of determining whether Shipper has transported the Priority Daily Quantity, be added to the volume of gas actually transported; provided, however, in order to receive such credit, said interruption must occur through no fault of Shipper or its agents, designees, or suppliers. It is understood and agreed by the parties that the rates provided for herein have been reached through arms length negotiations and that neither party had an unfair advantage during the negotiations thereof. Imbalance: Shipper must maintain a monthly balance of the gas transported hereunder. An Imbalance will exist hereunder, during any designated time period during the term hereof, there is a numerical difference between the quantity of gas delivered by Transporter to Shipper at the Delivery Point and the quantity of gas received by Transporter from Shipper (or its designee) at the Receipt Point(s), exclusive of the Retention Volumes and Make-up Volumes. At the end of each month, Shipper will pay Transporter \$0.25/MMBtu of Cumulative Imbalance that is greater than 5% of the volume of gas delivered at the Delivery point for such month. Taxes: 100% Tax Reimbursement. Imbalances: (a) Monthly Imbalance - Pooler must maintain a monthly balance of the gas transported hereunder. A Monthly Imbalance will exist hereunder when, during any month of the term hereof, there is a numerical difference between the quantity of gas delivered by ATMOS to Pooler at the Pool Delivery Point and the quantity of gas received by ATMOS from Pooler (or its designee) at the Receipt Point(s), exclusive of the Retention Volumes. Any such Monthly Imbalance must be corrected as soon as possible, but no later than the end of the month immediately following the month in which it occurs. (b) Imbalance Fees - At the end of each month, Pooler will pay ATMOS \$0.25 for each MMBtu of Cumulative Imbalance that is greater than 5% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month and Pooler will pay ATMOS the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for each MMBtu of Cumulative Imbalance that is greater than 10% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month; provided however, and any Cumulative Imbalance of 2,000 MMBtu or less will not be charged an Imbalance Fee at the end of such month (Minimum Imbalance Level). (c) Seasonal Imbalance Fees Adjustments - Notwithstanding the provisions of Paragraph (b), at the end of each month during the Winter Season (November # March), Pooler will pay ATMOS \$0.50 for each MMBtu of Cumulative Imbalance due Pooler (positive imbalance) by ATMOS that is greater than 10% of the quantity of Gas delivered hereunder at the Pool Delivery Point for such month; provided however, and any Cumulative Imbalance of 2,000 MMBtu or less will not be charged an Imbalance Fee at the end of such month. Any Imbalance Fee related to a Cumulative Imbalance due ATMOS (negative imbalance) by Pooler at the end of each month during the Winter Season will continue to be calculated as described in Paragraph 3(d). During the Non-Winter Season (April # October), any Cumulative Imbalance at the end of each month will be calculated as described in Paragraph (b). (d) Critical Weather Event Imbalance Fee - Pooler will pay the Critical Weather Event Imbalance Fee for each day its quantities are deficient during the Critical Weather Event following the effective time set forth in a Critical Weather Event Order. Deficient quantities during a Critical Weather Event will be determined by subtracting: 1) the total quantity of gas delivered from Pooler's pool station for such day from 2) the confirmed nominated quantity of gas at Pooler's Receipt Points for such day. The fee will be equal to 200% of the highest daily price published during the Critical Weather Event for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey. In the event the daily price for the Katy point listed in the table entitled Daily Price Survey is no longer published, ATMOS will base the Critical Weather Event Imbalance Fee on a daily price index recognized as authoritative by the natural gas industry for the Katy point. Critical Weather Imbalance Fee will be assessed for each MMBtu that exceeds the daily tolerances as set forth below: (i) If a Pooler's total daily combined customers' usage is less than 20,001 MMBtu/day, a deficiency tolerance of 10 % will be permitted. RATE PT - PIPELINE TRANSPORTATION

Applicability

This rate schedule is applicable to service by the Company under a Transportation Agreement - Pipeline, to a customer directly connected to the Atmos Pipeline-Texas System for the transportation of all natural gas supplied by Customer or Customer's agent for delivery to Customer at one Point of Delivery.

Not applicable for service to City Gate Service customers.

Type of Service

This service provides interruptible transportation service to end use customers. Where service of the quantity and type desired by Customer is not already available at a Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished at such Point of Delivery.

Monthly Rate

Customer's monthly bill will be calculated by adding the Monthly Customer and Usage charges to the amounts and quantities due under the Riders listed below. The Monthly Customer Charge each month will be equal to the Capacity Charge, as adjusted, multiplied by the Customer's Maximum Daily Quantity (MDQ) as set forth in the Transportation Agreement between Customer and Company. Total Usage Charges each month will be equal to the Usage Charge multiplied by the volume of gas delivered to Customer by Company during such month:

Charge	Amount
Capacity	\$ 10.33555 per MMBtu of MDQ (Note 1)
Annual Rider REV Adjustment	\$ (0.80371) per MMBtu of MDQ
Interim Rate Adjustment (IRA)	\$ 2.15358 per MMBtu of MDQ (Note 2)
Total Capacity Charge	\$ 11.68542 per MMBtu of MDQ
Usage	\$ 0.01347 per MMBtu

Rider RA: Plus a quantity of gas as calculated in accordance with Rider RA.

Rider TAX: Plus an amount for tax calculated in accordance with Rider TAX.

Rider MF: Plus an amount for municipal fees calculated in accordance with Rider MF.

Rider SUR: Plus an amount for surcharges calculated in accordance with Rider SUR.

Rider REV: Plus an amount per MMBtu in accordance with Rider REV as an adjustment to the Capacity Charge per MMBtu of MDQ.

Rider SSI: Plus a System Safety and Integrity surcharge billed as a separate line item in accordance with Rider SSI.

Imbalance Fees

All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees

Customer shall pay Company the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest midpoint price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey during such month, for the MMBtu of Customer's monthly Cumulative Imbalance, as defined in the applicable Transportation Agreement, at the end of each month that exceeds 10% of Customer's receipt quantities for the month.

Curtailment Overpull Fee

Upon notification by Company of an event of curtailment or interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of curtailment or interruption, pay Company 200% of the midpoint price for the Katy point listed in Platts Gas Daily published for the applicable Gas Day in the table entitled Daily Price Survey.

Replacement Index

In the event the midpoint or common price for the Katy point listed in Platts Gas Daily in the table entitled Daily Price Survey is no longer published, Company will calculate the applicable imbalance fees utilizing a daily price index recognized as authoritative by the natural gas industry and most closely approximating the applicable index.

MDQ Adjustment

If a Customer's daily usage on any day exceeds the Customer's MDQ as set forth in the applicable Transportation Agreement by 10% or more, the Customer's MDQ shall be increased to equal such daily usage. The effective date of such increase in the MDQ shall be the first day of the calendar month that begins following the day on which the Customer's daily usage exceeded the Customer's MDQ.

CURRENT RATE COMPONENT**RATE COMP. ID****DESCRIPTION**

Docket No. OS-23-00013758, Columns (d) and (e), Line 6 for each class, respectively, as compared to the Total System Other Revenue Credit on Schedule J, Column (c), Line 6. Any difference between the amount authorized to be collected from each class effective the second prior November 1 under this Rider and the amount collected from each class under this Rider during the twelve-month period beginning on the second prior November 1 will be added to or subtracted from each class' respective allocated portion of the difference in Other Revenue. The adjusted allocated portion of the difference in Other Revenue for each class shall be divided by the then current MDQ for such class, and that result shall be divided by 12 to calculate a monthly amount. The resulting amount shall be added to or subtracted from the capacity charge for each class. Such adjusted capacity charge will then be adjusted for any Interim Rate Adjustments approved by the Commission after the issuance of the Final Order in Docket No. OS-23-00013758.

Adjustment Review Process

No later than August 15th of each year, Atmos Pipeline - Texas shall file with the Commission an Other Revenue Adjustment Report showing the following:

1. The actual Other Revenue billed by Atmos Pipeline - Texas during the twelve-month period from July 1 of the prior year through June 30 of the current year by FERC Account;
2. A listing of the customers in the Other Revenue class by coded reference showing monthly volumes and monthly revenues for each customer;
3. The then current contractual MDQ and the MDQ in the prior year's filing for each customer in each class (CGS and PT);
4. The Other Revenue allocation percentages for each class derived from Schedule J;
5. The calculations described in the Adjustment Mechanism Section of this Rider REV and supporting schedules;
6. A confidential cross reference listing of the Customer codes and names (for Railroad Commission Staff only);
7. A statement on whether or not the proposed adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year; and
8. Proposed tariffs showing the proposed adjusted rates. Atmos Pipeline - Texas shall provide notice to all directly affected customers by bill insert or direct mail on the same date as the date of the filing of the Other Revenue Adjustment Report. The notice shall provide the customers with the proposed adjustment and contact information on where the customer can inspect a copy of the filing. If the requested adjustment would generate additional revenue of more than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, the notice shall contain a statement that within 20 days of the date of the filing the customer has a right to:
 1. request a copy of the complete filing and the address for making such a request;
 2. file a reply and the address for filing a reply; and
 3. request a hearing and the address for making such a request.

If a hearing is requested, the Hearings Division of the Commission shall conduct the hearing, which shall be limited in scope to the sole issue of the reasonableness of any increase greater than 2 one-half% of Atmos Pipeline - Texas' annual per books revenue for the twelve-month period ending on June 30 of the current year, on an expedited basis in order to permit the Commission to approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. The Commission shall have the opportunity to review the Other Revenue Adjustment Report and may submit discovery requests until the 40th day following the filing date of the Other Revenue Adjustment Report. Directly affected customers may also submit discovery requests until that date. The Commission shall approve, adjust or deny the proposed Other Revenue Adjustment on or before November 1 of the current year. Atmos Pipeline - Texas shall have the right to appeal the Commission's decision by filing a Motion for Rehearing with the Commission within 20 days following the issuance of the Commission's decision. Atmos Pipeline - Texas shall promptly reimburse the Commission for the cost of reviewing each Other Revenue Adjustment Report upon the invoicing of such cost. The Other Revenue Adjustment, as adjusted by the Commission, shall be implemented on November 1 of the current year and shall remain in effect until revised on the following November 1st.

This Rider shall be applied to all Rate CGS and Rate PT customers of the Company.

QUALIFYING ACTIVITIES AND EXPENSES

The SSI Rider applies only to SSI Expenses, which include:

- (1) MAOP records verification costs for activities performed between January 1, 2023 through the completion of these activities in March 2023,
- (2) MAOP hydrostatic testing costs that are incurred subsequent to December 31, 2022, and
- (3) third-party O&M expenses above or below those included in the SSI Expense Benchmark that are incurred to comply with safety and integrity regulations adopted by state or federal statutes or regulatory agency rules and regulations that take effect subsequent to December 31, 2022.

The third-party O&M expense items related to safety and compliance activities that qualify for recovery under this Rider shall include the contractor costs associated with activities resulting from safety and integrity regulations adopted by the Railroad Commission of Texas (Commission) and/or the Pipeline and Hazardous Materials Safety Administration (PHMSA). Applicable state and federal status or regulatory agency rules and regulations include those in 49 C.F.R. Part 192; the rules and regulations of the Commission and PHMSA, including Mega Rule 2; other PHMSA rules or advisories regarding programs or activities related to compliance with 49 C.F.R. Part 192; Standards and Recommended Practices issued by PHMSA and recognized standard developing organizations; and other municipal, state or federal statutes, rules or regulations regarding natural gas pipeline safety and integrity management. Neither capital expenditures by the Company, nor the labor cost of APT or other Atmos Energy employees, shall be recovered under this Rider. Capital expenditures associated with system safety and integrity activities shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

CALCULATION OF SSI SURCHARGE

Qualifying Activities above or below the SSI Expense Benchmark established in Docket No. OS-23-00013758 shall be deferred into a regulatory asset account (SSI Regulatory Asset Account).

On an annual basis, the SSI Regulatory Asset Account shall be used to establish the SSI Surcharge under this SSI Rider to recover the Total SSI Expense incurred and deferred in the prior year for qualified activities. The SSI Surcharge will be calculated as follows:

SSI Surcharge =
 Step 1: Total Qualifying Activities SSI Expense less SSI Expense Benchmark
 = Over/Under (SSI Amount) Collection/Refund Amount
 Step 2: SSI Amount divided by Total period ended March MDQs*
 = Monthly Surcharge Amount/MDQ

*MDQs equal the total of each month's MDQs for the period ended March for all customer classes (i.e., Rate CGS - Mid-Tex, Rate CGS - Other, Rate PT)

Based upon customer data for the period ended March and any other relevant factors, the Monthly SSI Capacity Charge Adjustment will be revised annually to account for changes in MDQ and the resulting revised SSI Surcharge shall be applied to each applicable customer class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

On or before June 15th, beginning in 2024, the Company shall calculate the SSI Surcharge based on the period January 1, 2023 through March 31, 2024 by FERC Account. The initial SSI Surcharge filing shall be filed with the Commission and the Commission shall complete its review so that the Company can implement the SSI Surcharge effective November 1st. In subsequent years, the SSI Surcharge shall be updated and included with the reconciliation of the previous year's over/under collections.

Atmos Pipeline - Texas shall provide a copy of the SSI Surcharge filing to the parties in Railroad Commission of Texas Docket No. OS-23-00013758 (Parties) on the same date as the date of the filing with the Commission. Parties have the right to review the filing, submit discovery requests, and provide recommendations to Staff regarding any adjustments to the proposed SSI Surcharge calculation on or before September 1 of each year.

On or before June 15th, beginning in 2025, the Company shall calculate the SSI Surcharge based on the period April 1st of the prior year through March 31 of the current year by FERC Account.

On or before June 15th, beginning in 2026, after completion of each annual recovery period, the total revenues collected under this SSI Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the SSI Surcharge for the Rate CGS and Rate PT customer classes shall be adjusted upward or downward so that the Company recovers any under-recoveries or refunds any over-recoveries that may have accrued under the SSI Rider, plus monthly interest on those under-recoveries or over-recoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set for customers.

The reconciliation shall be filed with the Commission on or before June 15th of each year, and the Commission shall complete its

FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.
